VOL. LI. CORSCICANA, TEXAS, FRIDAY, AUGUST 13, 1937.—TWELVE PAGES N. 78.

BLACKNAMED SUPREME COURT NINETEEN DIE IN WATER AVALANCHE

THREE TENEMENT BUILDINGS COLLAPSE DURING RAINSTORM

TONS OF WATER WRECK STATEN ISLAND HOUSES; DWELLERS MEET DEATH

NEW YORK, Aug. 11.—(P)—19 persons were crushed to death in their sleep early today, amid a smothering avalanche of bricks and debris, when three Staten Island tenement buildings collapsed during a violent rainstorm.

Tons of water, roaring down from an overflowing storm sewer about midnight, struck the ancient brick dwellings and ripped them asunder.

Rescue squads of police and firemen pulled at the tangled wreckage for additional victims.

Three persons were still missing. Four others, who escaped from the shattered structures, were taken to the Staten Island hospital with serious injuries.

Parolin Joseph, 36, of emergency squad No. 10, the first rescuer on the scene, died a hero. He plunged into one of the buildings after the first structure collapsed. Searching squads found him later, buried in the wreckage. His arms, with her arms curled tightly around his neck, was the body of 4-year-old Virginia Budnick.

The disaster struck at the height of a thunder and electrical storm that swept the metropolitan area and Long Island, in which four other persons were killed by lightning or were drowned.

Worst Tragedy in Years.

Police Commissioner Lewis J. Valentine, directing the rescue work, called the tragedy "The worst of its kind in years."

The trapped victims were crushed and then buried beneath wreckage in a 30-foot cellar filled with muddy water. Most of them appeared never to have what was left of them, being killed outright.

Staten Island, the scene of the disaster, lies five miles from the Battery, the lower tip of Manhattan, in Lower New York harbor. It is 14 miles long and nearly seven miles wide at its widest place, with 160,000 residents, many of them commuters who work in Manhattan. The tragedy occurred directly across the Kill Van Kull, a narrow strip of water, from Bayonne.

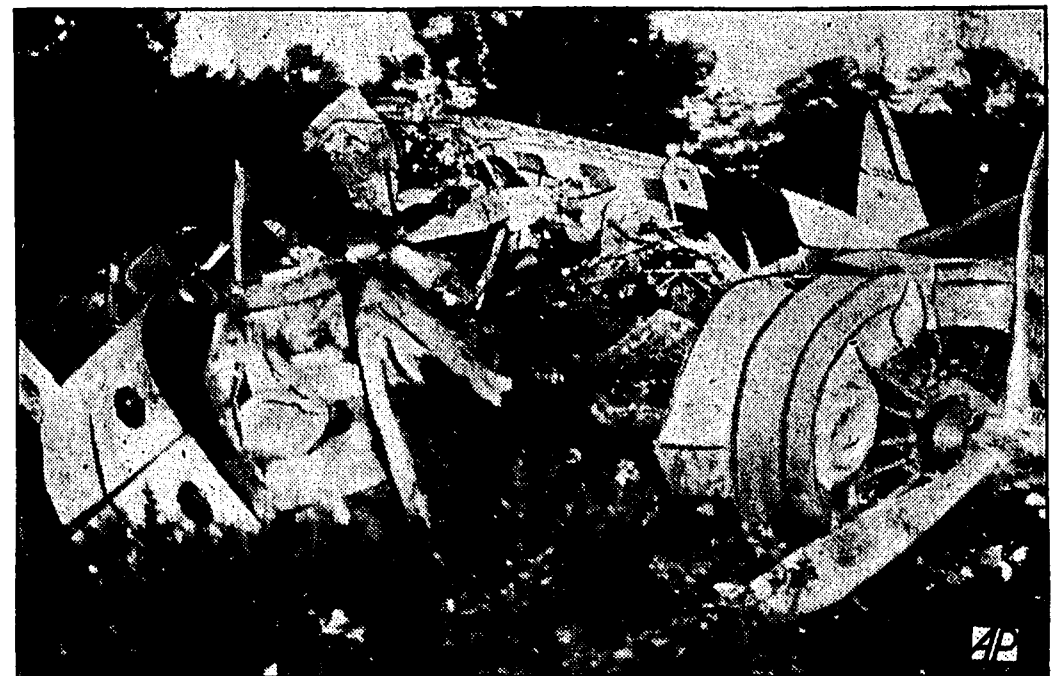

The three buildings, erected nearly half a century ago, were hit by a foaming torrent rushing down a steep hillside from a storm sewer. They were leveled as if struck by a tornado, and an explosion. Not a board stood intact.

Collapsed Without Warning.

Neighbors said the houses collapsed without warning.

See DISASTER, Page 7

FOUR KILLED IN FLORIDA PLANE CRASH

Four persons were killed and five injured when this Eastern Air Lines transport plane crashed at Daytona Beach, Florida, early Tuesday morning just after taking off from the airport there.

COMELY BLONDE IS HELD ON MURDER AND LARCENY WARRANTS

CINCINNATI POLICE INVESTIGATING DEATHS OF FOUR ELDERLY MEN

CINCINNATI, Aug. 12.—(P)—Police inquiring into the death of four elderly men and illnesses of four other elderly German persons obtained today from the husband of Mrs. Anna Hahn, 31, comely former teacher in Germany, a bottle of medicine which Acting Detective Chief Patrick Hayes said might provide a clue to the manner of the men's deaths.

Mrs. Hahn, charged with grand larceny in warrants issued here and in Colorado Springs, and with murder in a fugitive warrant signed by a Cincinnati detective, Walter Hart, has been questioned for two days regarding her acquaintance with the men who died.

The bottle, half filled, was marked "Hahn" and was found in a tin canister, said Dr. Otto Bohrer, city chemist, said medical authorities agreed it would be fatal if administered in sufficient quantity.

Hayes said Hahn told him he had quarreled with his wife about the bottle and informed police he took the bottle in her absence.

See WOMAN HELD, Page 7.

Johnson Urges Action on Loans Cotton Farmers

WASHINGTON, Aug. 12.—(P)—Representative Luther A. Johnson of Corsicana, Texas, said today congress should pass mandatory legislation requiring the Commodity Credit Corporation to make loans to cotton farmers.

He declared unless something is done immediately to stabilize the price of cotton, farmers in the south are threatened with bankruptcy and labor, industry and business of every character in that section will suffer great and irreparable loss.

INSURGENT FORCES ADVANCE ON SEVERAL FRONTS THURSDAY

SPANISH GOVERNMENT MOVING UP ADDITIONAL FORCES TO MEET ATTACKS

HENDAYE, Franco-Spanish Border, Aug. 12.—(P)—A border report from a military source said the insurgent forces "advanced in several sectors" today on the Santander front, apparently in a renewal of the northern offensive of the Spanish civil war.

Insurgent planes made a number of flights over Santander, dropping propaganda pamphlets urging the inhabitants to support Generalissimo Franco.

The insurgents heavily shelled the government positions at Canigal, seemingly in a fresh attempt to move their spearhead of attack closer to the Guernica road in an attempt to cut this communication line between Madrid and Valencia.

The government was moving up additional forces into the combat zone in an effort to protect the road.

From the loyalist side came a report that further uprisings against insurgent rule had taken place in Andalusia and at Fria de Albarraquin Terriente.

Spanish Government Ship Sunk TUNIS, Tunisia, Aug. 12.—(P)—A Spanish government ship of about 6,000 tons today was reported torpedoed and sunk off Cape Bon, 60 miles from here, with the loss of 12 of her 40 crew members.

Lloyds reported the ship was the tank motor vessel Campador. The master of the British ship Dido, nearby, said three of the crew were picked up near the vessel last night. He described it then as "blazing furiously."

The Campador, of Santander, carried a cargo of benzine.

ADJOURNMENT DATE FOR CONGRESS HAS BEEN MOVED BACK

WAGE AND HOUR AND ANTI-LYNCHING BILLS BRING CONTROVERSY

WASHINGTON, Aug. 12.—(P)—Congressional chiefs moved back today the tentative adjournment date to Aug. 25 because of scraps over wage-hour and anti-lynching legislation.

They had hoped to quit by Aug. 21. House leaders, however, abandoned hope of getting the wage-hour bill out of the rules committee and onto the floor before next week.

Disposition of that measure, once debate begins, and of other administration bills may take 10 days or more. Some members, in fact, predicted the session might last through labor day.

The senate faced the possibility of a long debate on the anti-lynching bill. Administration forces had intended to hold it back until their regular program had been enacted.

Senator Wagner (D-N.Y.) surprised them yesterday, however, by winning recognition to debate it. The bill's supporters defeated a motion which would have side-tracked it.

Leaders nevertheless were trying to reach an agreement to consider it next session. There was talk, too, that the wage-hour bill might go over until January, but not without a fight.

A majority of the house rules committee, opposed to the labor standards measure, was refusing to give it legislative right-of-way. The committee acts as a sort of sifting group for all major bills which ordinarily can hold up any which it does not favor.

Tremendous Pressure.

One member, Rep. Cox (D-Ga.) said "tremendous pressure" was being applied to get the bill to the floor. He added:

"There is no punishment, pressure or influence that can be seen."

GRAVE MILITARY CRISIS FACED IN BIG CHINESE CITY

HORDES OF CHINESE TROOPS POURING INTO JAP-THREATENED CITY

NANKING, Aug. 13.—(P)—The Chinese central government declared formally today that the Shanghai crisis has become so acute that "there is no way left but for China to resist Japanese aggression and violence."

SHANGHAI, Aug. 12.—(P)—Ranks of Japanese bluecoats moved into battle position in Shanghai to face an unsettled torrent of Chinese regulars tonight and the garrisons of the United States and three other nations mobilized "for the worst."

A "peace" conference intended to ease the crisis in the panic-stricken city ended in failure.

Backed by warships at Shanghai's wharves, Japanese naval forces, estimated to number between 5,000 and 8,000, moved into the same positions they occupied during 1932's Chinese-Japanese hostilities.

They deployed along the fringe of the Japanese portion of the International Settlement and roads extending northward.

Chinese central government troops streaming into the city answered to no authority but the army. Civilian authorities would not try to stop them.

Each force indicated it was not planning to attack. But the situation needed only a spark to touch off an explosion.

United States Marines, 1,050 strong, mobilized along with Russians, French and British garrisons. The Americans were charged with the protection of nearly 4,000 United States citizens in Shanghai, and its environs, some of whom were cut off by the Chinese advance.

British forces number 950; and

Named to High Court

Senator Hugo L. Black of Alabama was nominated by President Roosevelt Thursday to succeed Justice Van Devanter as United States Supreme Court justice. The nomination was not announced at the white house and was included in the batch of other nominations. Immediate confirmation of Black was blocked by Senators Burke of Nebraska and Johnson of California.

ALABAMA SENATOR'S NOMINATION COMES COMPLETE SURPRISE

SENATORS BURKE AND JOHNSON BLOCK IMMEDIATE CONFIRMATION

WASHINGTON, Aug. 12.—(P)—President Roosevelt named Senator Hugo Black, of Alabama, to the supreme court today, but his immediate confirmation was blocked by Senators Burke (D-Nebr.) and Johnson (R-Calif.).

The why Alabama was named by Mr. Roosevelt to succeed Willis Van Devanter, retired, in unusual secrecy. It was listed among other routine nominations but was not made public at the White house as is the custom.

The nomination immediately created a tremendous stir in the senate and brought a hearty endorsement from leaders of organized labor's divided ranks.

Chairman Ashurst (D-Ariz.) of the judiciary committee demanded immediate approval of it, without reference to committee, the usual procedure for nominations.

Senator Burke, one of the leaders in the recent fight against the supreme court enlargement bill which Black supported, quickly objected to the nomination. He said he would object to immediate action.

Other members of the committee, including Senator Neely (D-W.Va.) to consider it. Others of the committee (Sen. Logan (D-N.Y.); Dietrich (D-Ill.); McGill (D-Kan.); Borah (D-Ida.); and Austin (R-Ver.) Off the floor Borah previously had told reporters he would not object to immediate confirmation if it of the nomination, thereby indicating his support.

Only a few minutes before the nomination went to the capitol, a White House aide had told reporters in effect that the President had considered no other man for the post but Senator Robinson of Arkansas up until the time the senate leader died a month ago.

Barkley Seeks Immediate Action. Democratic Leader Barkley, who joined with Ashurst in seeking the nomination, did not, however, see BLACK, Page 5.

HOUSE-SIZE BOULDER DROPS INTO SINKING IDAHO SECTOR AS HUGE NEW CRACKS OPENED

POSSE SEARCHING BRUSH NEAR AUSTIN FOR LONE KILLER

MAN KILLED TRUCK FARMER, SHOT HIS WIFE AND SON EARLY THURSDAY

AUSTIN, Aug. 12.—(P)—An armed posse searched the brush four miles east of here this morning for an unknown assassin who had killed E. N. Payton, Govalle truck farmer, wounded Mrs. Payton severely and shot their 23-year-old son in the leg.

The shooting occurred about 6 a. m. when Payton and his sons attempted to prevent the intruder from stealing the family automobile.

Shortly before the slaying occurred the police who had been watching a residence for possible suspects in the San Antonio Public Service Company robbery early this week when about \$1700 was obtained.

Search for the fugitive centered in the Colorado river bottoms after officers found the Payton car in which the man made his escape wrecked on the Walnut creek bridge, about six miles east of Austin.

The man kidnapped another son of the family but released him unharmed about a block from the Payton home.

Payton saw the man enter his garage and when he went to investigate the intruder demanded

See KILLER, Page 5

BUHL, Idaho, Aug. 12.—Boulders big as houses tumbled today into a canyon newly-formed and still expanding on a farm eight miles northwest of here.

Scores of sightseers thronged to the remote ranch corner risking their lives in the rapid earth change despite an order of Emil Bordwick, manager of Griffin ranches, closing the area to the public.

Huge new cracks opened from time to time, acres of grain-bearing earth settled visibly and with sound effects, and new masses of rock and soil, loosed along the freshly-carved canyon rim, thundered into the youthful basin.

Fishermen complained the course of the nearby Salmon river had been altered as much as 20 feet in places where boulders as "large as a house" had rolled into the channel.

"At least 17 acres of my land is doomed," mourned H. A. Robertson, lessee of the ranch in which most of the devastation has taken place.

Geologists expressed belief the strange earth activity would not progress much beyond the 100 acres of grazing land and grain-field now involved.

"It appears to me that the region is above a great cavern deep river was undermining the region. Robertson said first indication of "terra uniforma" came three years ago when a grain field dropped a few feet. Then two weeks ago a five-acre area dropped so rapidly that in 14 days it was from 125 to 200 feet below its former level.

FREIGHTER SINKS AFTER COLLISION WITH BIG LINER

MEMBERS OF CREW DANISH VESSEL TAKEN ABOARD DUCHESS OF ATHOLL

NEW YORK, Aug. 12.—(P)—The Radio Marine Corporation of America reported today the Danish freighter Maine sank at 9:49 a. m. after the vessel had been abandoned following a collision with the Canadian Pacific steamer Duchess of Atholl which was standing by.

Italian Hospital Ship Destroyed In Spectacular Fire

NAPLES, Aug. 12.—A spectacular fire which threatened all the shipping in Naples harbor destroyed Italy's prize hospital ship, the Helouan, early today while tens of thousands of persons, including hundreds of American, watched.

One fireman was asphyxiated in the desperate and successful battle to save the waterfront.

The wrecked ship was towed in flames into deep water and sunk.

The fire began at 4 a. m. while Naples slept, but before the blaze was ended practically every residence of the city was out of doors.

The majority of Americans witnessing the blaze were awaiting the arrival of the liner Conte De Savoia which takes them to New York.

Authorities said the fire originated in the ship's medical department, either from short circuit or the spontaneous combustion of medicines.

The skeleton crew of 40 men, only men aboard at the time, fought the blaze until every available fireman in Naples was at the scene. The master, Capt. Emanuel Nostrotin, forcibly removed from the ship, was the last man to leave.

Two Negroes Are Questioned About Attack on Woman

LIVINGSTON, Aug. 12.—(P)—Two Negroes, under the protection of four white men, were questioned late last night about an attack on a prominent Livingston woman.

While officers piled questions to the suspects in the Police jail the Rangers stood guard against lynching threats by more than 100 men who milled about the court house. There had been a riot in the city after the woman said a negro attacked her in her home Tuesday night.

Out of a dozen Negroes arrested as suspects the two were selected for concentrated questioning. The victim had said she was unable to identify her attacker because the assault took place in the dark.

Footprints left by the attacker were watched against those of the suspects.

The Rangers called to the scene were Capt. A. R. Mace and Hardy Purvis and two subordinates.

Motorcyclist Is Killed. CORPUS CHRISTI, Aug. 12.—(P)—M. L. McDonald, 20, of Austin, was injured fatally here last night when his motorcycle collided with an automobile. The son of Mrs. Florence McDonald of Austin, the victim had been employed here by a tile concern.

CONTINUE APPEAL FOR FUNDS ASSIST STORM SUFFERERS

CASE WORKERS MAKING INVESTIGATIONS TO CONDITION EACH FAMILY

Local contributions to the Navarro county storm relief funds totalled \$304.50 up to noon Thursday. This was augmented by \$5,000 sent in from the disaster fund of the national funds of the American Red Cross.

While the appeal for funds was being continued, case workers were continuing their investigations into the condition of each family affected by the storm and making definite recommendations for the local advisory board named last Sunday which will hold its first meeting Friday night according to an announcement made Thursday.

The financial situation at noon Thursday was:

Previously reported.....\$ 390.50
Headquarters check.....5,000.00
Donated at Sun Office.....25.00
Donated at First National.....85.00
Donated at State National.....8.00

Grand total available.....\$5,304.50

Those making contributions, not previously listed included:

Sun-Light Publishing Company, Mr. and Mrs. O. W. Allison, C. B. McKinney, L. A. Workman, Mr. and Mrs. C. E. Love, Cash, Miss Ethel Findley, Corsicana Dr. Pepper Company, J. M. Blandling, C. S. Dickens, Mrs. T. A. Miller, Emily, Allen, Garaway, Edna Webb, Margaret Lowry, and F. L. Seale.

INFANTILE PARALYSIS IS NOT EPIDEMIC IN TEXAS; DOCTORS CALL ON PARENTS BE WATCHFUL

DALLAS, Aug. 12.—(P)—Many medical men of Texas spoke softly of infantile paralysis today but not of their scientific powder dry.

From many points in the state came reassuring statements that sporadic outbreaks of the disease were declining but there was evidence the doctors were overlooking no hints to prevent anything resembling an epidemic.

In Dallas, city and county health authorities decided to discuss today what should be done about the baffling malady. They were moved to action because five youngsters of the City-County Boys' Industrial Home were believed stricken and because the 18 Dallas county cases this year were more than the county ordinarily has.

Statewide awareness of the paralysis threat was further pointed up when Texas A. and M. College called off its annual summer short course, to which about 1,300 rural boys and girls come each year to learn about farming.

"I cannot but advise that crowding some 1,300 boys and girls together would be attended with some hazards," Dr. George W. Cox, county health officer, advised the college authorities.

Elsewhere in Texas large gatherings of children were being discouraged or stopped.

Since Jan. 1, state health department men said, 221 cases have been reported from about 60 counties, 27 of which reported only one case each.

Among the hardest hit was Navarro county, where 19 cases were reported since May 25—but Dr. William T. Shell, Jr., Corsicana health officer, and Dr. S. H. Burdett, county officer, said there was no trace of the disease now.

See PARALYSIS, Page 5.

SIX AMENDMENTS SUBMITTED VOTERS AUGUST ELECTION

OFFICIALS COMPLETE DETAILS; PRESIDING JUDGES ARE ANNOUNCED

County officials have made plans for the general election to be held in the forty-eight voting precincts of Navarro county, Monday, August 23, when proposed amendments to the Texas Constitution will be determined by Texas voters. Election supplies are ready for delivery to the proper election officials at the office of Paul H. Miller county judge.

The six proposed amendments include amount of liability of stockholders in state banks, as to distance to destitute children under the age of 14 years, authorizing the legislature to fix the manner and basis of compensation of district, county and precinct officers, that property shall never be assessed for taxes at more than its fair cash market value and allow a discount for payment of taxes before they become delinquent, to allow Harris county to adopt a road plan and levy taxes for road and bridge construction in lieu of

Miscellaneous—House debates minor irrigation bill; House rules committee considers demand to investigate sale of democratic year-books.

Yesterday.

House completed congressional action on court procedure bill.

Senate passed bill permitting harem exports.

Senate (Levinson) Commerce committee recommended investigation of radio industry.

RE-APPORTIONMENT ROAD-BRIDGE FUNDS ASKED IN PETITION

COMMISSIONER OF PRECINCT
ONE, ET AL, SEEKING RE-
STRAINING ORDER

A petition was filed in the district court Monday afternoon by T. P. Hayes, commissioner of Precinct 1, Navarro county, and others, against the three other commissioners, County Judge Paul H. Miller, and seven county officials, seeking to restrain and enjoin the expenditures of the road and bridge funds of Navarro county and a re-apportionment of the funds.

The suit had not been acted upon Tuesday morning by District Judge Wayne R. Howell, but a hearing will be held during the week.

The plaintiffs in the suit are Commissioner Hayes, J. A. Bonner, Frank Wilson and W. H. Dunn. Defendants named are County Judge Miller, Commissioners J. O. Sessions of Bazette, C. O. Slaughter of Currie and Joe George of Blooming Grove; Hayden Paschall, county treasurer, and E. Y. Cunningham, county auditor.

An order, over the protest of Commissioner Hayes, according to the petition, was passed by the commissioners' court, Feb. 8, 1937, whereby the road and bridge funds were apportioned equally between the four precincts of the county. On August 2, 1937, Commissioner Hayes made a motion for re-apportioning the funds and allowing Precinct 1 50 per cent, which motion died for the want of a second.

Taxes Precinct No. 1. The petition sets out that Precinct 1 pays from 80 to 75 per cent of the taxes of Navarro county; that Navarro county contains 1060 square miles of territory with 255.5 in Precinct 1, 539.8 square miles in Precinct 2, 232.7 square miles in Precinct 3 and 232 square miles in Precinct 4. It is set out that in Precinct 1 there are the bottoms of Chambers, Richland, Bry-Rush, Post Oak and other creeks; that there is probably more traffic within Precinct 1 than in the other three divisions combined, as all highways traverse the precinct in addition to Corsicana, the county seat, and the oil field within the precinct necessitating much heavy truck traffic. It was pointed out that there are approx-

Youth Was Slain By Big Spring Police In Store

BIG SPRING, Aug. 11.—(P)—Ben-
nie (Buster) Chaney 17, was shot
to death in a downtown store early
today by one of three policemen
who said the softball star fled as
he was commanded to halt.

City officers Denver Dunn, J. M. Chiles and Alfred Moody said they discovered someone in the store about 1:30 a. m. Moody fired when the man ran toward a door, the officers said. A bullet struck Chaney in the back of the head. Justice of the peace Joe Faucett had not returned a verdict in Chaney's death. The youth was a member of a local championship softball team. He came here a year ago after serving in a CCC camp at Sweetwater.

Chaney, whose parents are dead, lived recently with an aunt in Colorado, Texas.

**MRS. ISABELL DUKE
DIED HERE THURSDAY
BE BURIED DEL RIO**

Mrs. Isabell Duke, aged 80 years, resident of Corsicana for the past five years, died at the home of her daughter, Mrs. Dora Atkinson, 2104 West Third avenue, Thursday morning at 2 o'clock after a lingering illness. The body was forwarded to Del Rio, Texas, Thursday afternoon at 1 o'clock, where funeral services will be held and interment made Friday.

Surviving are three daughters, Mrs. Atkinson, Corsicana; Mrs. J. R. Tague, Los Angeles, Calif.; and Mrs. C. T. Garner, San Antonio; two sons, C. L. Duke, Los Angeles, Calif.; and E. M. Duke, Del Rio; a brother, Rufus Reynolds, Corpus Christi, and other relatives.

Corley Funeral Home directed arrangements.

imately 500 miles of road within the precinct.

The road and bridge funds amounted to \$12,441.15 last year and this year is estimated at \$13,000.

Ask Restraining Order. The plaintiffs asked for a temporary restraining order against the county treasurer from paying out additional road and bridge funds until the trial of the case, that the district court review the order passed Feb. 8, 1937, and declare the same invalid; that the acts of the county treasurer, county auditor, commissioners and county judge concerning the distribution of the fund be reviewed and that the funds be pro-rated according to law after trial.

An alternate request was contained in the petition was to the effect that an injunction be issued restraining the expenditure until the same is pro-rated according to law, and restraining the court from voting to expend more than 16 per cent of the funds in the other three precincts of the money now on hand and that to be collected in 1937-1938.

The suit was brought by Richard A. P. May.

TEN CENT LOANS ON COTTON FAVORED BY SENATE COMMITTEE

PROPOSED PROGRAM IDENTICAL IN PRINCIPLE WITH
THAT OF YEAR 1935

WASHINGTON, Aug. 10.—(P)—The senate agriculture committee voted today in favor of 10 cent cotton loans to farmers.

Chairman Smith (D-S.C.) was directed to name a sub-committee to bring out a resolution providing the mechanics for the government advances. The action was taken, members said, to "put a bottom under the market."

Cotton dropped \$2 a bale after the crop reporting board forecast yesterday a 15,593,000 bale cotton crop this year.

Smith said the loans would be mandatory, but left details of operation to the sub-committee. The committee action followed conferences with Southern agricultural commissioners who recommended the 10-cent advance. A resolution by Bilbo for a 12-cent loan was rejected on the ground it was so much higher than prevailing prices, the government would have to buy up the whole crop. The current price is a little more than 10 cents, but it has been falling steadily.

Smith said the proposed program was identical in principle with the 1935 cotton loan program.

**Ruth York Winner
First Place Scoring
Of Canned Fruits**

Ruth York of Richland won the first honors in the Navarro county contest in scoring canned fruits, according to an announcement by Miss Ruth McNabb, county home agent.

Contests were held by the 4-H club girls in each community and the community winners then competed in a contest held Tuesday afternoon. The prize for first place was to have been a free trip to the short course at A. and M. College. The short course has been postponed.

**Many Drowned As
Excursion Ship
Sinks In Lake**

MARACAIBO, Venezuela, Aug. 10.—(P)—Between 50 and 60 bodies had been recovered today from the wreck of a holiday excursion boat which foundered in Lake Maracaibo in heavy seas yesterday with 200 oil field workers aboard.

The boat, the Ana Cecilia, was overloaded, with passengers riding on a sun-deck awning.

KERENS, Aug. 12.—(Spl.)—Mrs. J. M. Lankford and Miss Dorothy Hall, of Oklahoma City, came in Tuesday for a visit with Mr. and Mrs. C. J. Hall.

Mr. and Mrs. Hunter Ross are in Kerens for a few days with their daughter, Mrs. Buck Buckner.

Mr. and Mrs. Charles Williamson of Dallas spent two days of this week with Mrs. Anna Williamson.

Mrs. J. A. Peek of Denton is guest of Mrs. Rhuel Carroll. Betty Jean Leggett of Dallas is here for a week's visit with her cousin, Mrs. William Bain.

Margaret Ivey has returned from a visit in Galveston with Mr. and Mrs. A. P. Robinson, they having driven her home in their car, and remained for a short visit here.

Miss Anna Ernest Tyus, who underwent an appendicitis operation in Denton last week, was able to be brought home Sunday and is well on the road to recovery.

Mrs. Ren Walker has as house guests for a few days Mrs. Jack Moore and daughter, N. L. Moore of Palmer.

Mr. and Mrs. D. L. Orr and son, D. L., Jr., were Sunday guests of LeRoy Orr in Dallas.

Robert Edward Logan of Paris spent the week-end here with his wife and little daughter.

Mrs. Red Waller of Malakoff was the guest of Mrs. James Taylor Wednesday.

Mrs. Fred Hulan and children, Carolyn and Henry D., took Mrs. Foster.

PLANS OPERATION OF MODERN BEAUTY SHOP IN CORSICANA

Mrs. J. T. Newsom has leased the building at 110 West Collin street and purchased the equipment of the Beauty Salon Bronte and plans to open the Newsom Beauty Shop there Saturday. The interior of the building is being completely remodeled, redecorated and re-arranged, and when completed will be very attractive and convenient.

The equipment is of the latest type and the Shop will do all kinds of beauty work, specializing in permanent waves. Only highly trained graduate operators will be employed.

Mrs. Newsom formerly conducted a beauty school and operated a beauty shop in Fort Worth.

To Attend Funeral. Mr. and Mrs. H. G. Brown will go to Dallas Friday to attend the funeral of Henry A. Gascon, member of the Dallas News-Journal advertising staff, who died Wednesday.

Mrs. Gascon is a niece of Mr. and Mrs. Brown.

Hulan's mother, Mrs. H. A. Barmorning for a visit with Mrs. Tina Brelthaupt.

Mrs. Axa Bell of Malakoff was here Friday to see Mrs. Z. N. Foster.

NEGRO GIVEN LIFE SENTENCE SENT TO PRISON WEDNESDAY

Hughey Fulton, Henderson county negro, given 99 years by a jury in the local district court, on a murder charge in a verdict Wednesday morning shortly after 10 o'clock, accepted the sentence, will not appeal his case and Wednesday afternoon was conveyed to the state penitentiary at Huntsville.

Sentence was pronounced on him Wednesday afternoon by District Judge Wayne R. Howell, committing papers were prepared by District Clerk Doyle Pevehouse and the negro was taken to the penitentiary by Deputy Sheriffs Jack Floyd and Allen Calloway.

Fulton was one of a trio of negroes charged in connection with the robbery, slaying and burning of the bodies of Mr. and Mrs. W. T. German, aged Stockard residents, Sept. 25, 1934. Fulton was tried here on a charge of venue on an indictment for the death of Mr. German. Elmer Pruitt, one of the trio, has been electrocuted. All three were given the death penalty in Henderson county, but the robbery, against Fulton and Arlie Cook were reversed and remanded. Cook's case is pending in Van Zandt county on a charge of venue.

The state had asked for the death penalty here. The 99 year sentence was brought in by the jury Wednesday morning shortly after 10 o'clock after deliberating since late Monday night. Introduction of evidence was completed Saturday night.

The Pepper Cadets, Popular Children's Program

Heard on WFAA Mondays through Fridays, has received so many letters from boys and girls of the Pepper Cadet clubs they have organized in their towns to listen to the program, that Capt. Dunn, Sgt. Jimmie and Sunshine decided to use that as the idea for the new contest which started Wednesday. Thousands of letters during the next week will read "Why I Like to Listen to the Pepper Cadets" in the contest to win 54 cases of Dr. Pepper.

Contests sponsored by the Pepper Cadets are held on an average of every other week, and contrary to most rules, they continue to grow more popular with each. The last contest drew 6,000 entries and enrolled 3,500 new members. Officials of WFAA, 50,000 watt leading radio station in this area, say the pulling power of this program is phenomenal.

On the air only since about the first of May, the Pepper Cadets has already gained much national publicity. "Broadcasting" analyzes the reasons for the quick success of the program. "Sales Management" thinks "This restful type of program which deals with children's own problems is much more effective than the program that jolts them into complacency fits with gangsters and such." "Variety" comments on the serial's popularity, and "National Carbonator and Bottler" recites at great length the workings of this newest approach to the juvenile market.

Dr. Pepper Bottling Co. of Corsicana, Texas, is one of the sponsors of this remarkable serial heard over WFAA at 5:00 p. m.

TRAVELLER'S TIMELY WORD FROM PEAK OF MT. SINAI *

Munsings Upon Place of Universal and Perpetual Law In a World Torn by Lawlessness
—"Back to Sinai!" A Slogan of Safety.

By WILLIAM T. ELLIS

Dominating the living room of my home is a large colored photograph of John Musa, or Mount Sinai. The side shown is the sheer face, which, like a giant, looks down upon the world. The smooth plain upon which the whole assembly of Israel could have gathered, I got the picture in Jerusalem as a memento of the wonderful week that I spent on Mt. Sinai. But it also serves as a reminder that in our home we are heedful of the eternal law; which Jesus later summarized in the two great words concerning love of God and love of man.

These are days for returning in spirit to Sinai, the mooring post of civilization. I was on the mountain during the critical period of the Paris Peace conference. I had been in Paris for the early part of the conference. I had traveled to the turbulent Near East, where I had reported the situation in Greece and Turkey and in insurrectionary Egypt. The problems of the world were near and actual to me. I well remember sitting on the red granite peak, by the rude stone chapel which the monks of the ancient monastery had erected ages ago to mark the traditional site of the reception of the Law of Moses.

It is a sublime spot. No ice cap, geologists say, ever covered these stony heights. I could look to Africa, across the Red Sea, to the west; and to Arabia, over the Gulf of Ahaba, to the east. Northward lay the Mediterranean. Europe and Palestine. In solitary sublimity, the spot passes all description.

War Correspondent On Sinai.

During the hours I spent on Sinai's crest, my thoughts were naturally colored by my calling. From the world war, the Peace conference and the eastern nations in turmoil, I had come to this remote, yet pivotal point. I tried to consider the new world problems in relation to Sinai and the Law. All my thinking was reduced to simplest terms by my environment. My clear conclusion was that if the statesmen admitted Moses to their councils, and gave obedience to the ageless Decalogue, we might hope for world peace. To run counter to the Divine Law would spell unrest, strife, chaos.

Every reader knows the result. The world-wise statesmen turned their backs on Sinai and simple right. Now behold the consequences! Back on Sinai, in memory, with the clash and clamor of embittered and embattled hordes sounding from every direction, I solemnly repeat the message that I wrote twenty years ago. Except this warring world yield obedience to the law of God, and expect all parties to the present conflict to conform to the revealed will of the Eternal for human conduct, we may not hope for anything else but continued and increased chaos. With all the seriousness and practical judgment of which am capable I offer this as the only "way out." A return to Sinai is the one path of progress.

Is Decalogue Out of Date? With a tilting of noses and lifting of eyebrows, many "modern" persons say that the Ten Commandments are out of date; and they act accordingly. A favorite diversion of the "bottle intellects," as Kipling calls them, is to have college classes answer questionnaires upon the relative importance of the Ten Commandments—perceiving no impropriety or irrelevance in

thus having callow youth revise the Law of the Almighty. It is significant that all such tabulated replies as I have seen put at the top of their list, "Thou shalt not kill." "Safety first" is evidently the rule with these "emancipated egoists." As would be expected, these revisers list last the first commandment, concerning the supremacy of God. But as Lowell wrote, long ago: "In vain we call old notions fudge, And bend our conscience to our dealing; The Ten Commandments will not budge, And stealing still continues stealing."

Sinai still stands, unshaking and dominant, as it stood thousands of years ago. The Law of the Lord may not be abrogated, revised, ignored or parodied. The Ten Commandments were written in the heart of man before they were inscribed on tablets of stone. They timelessly meet, with amazing comprehensiveness, the basic requirements of a moral order in human society. Local conditions and changing customs do not alter them. They are not, like the code of Hammurabi, so detailed that their applicability passes with the progress of society. No law can exempt from them; they are "The Law," for all men, always and everywhere. There is no "higher spiritual life" that rises above Sinai; these mandates are for everybody, saint or sinner.

Sinai Up To Date. Ours is a lawless day; and the increase of the spirit of lawlessness is one of the most ominous signs of our times. Everybody who thinks at all about the living present knows this. In both the industrial and international wars of our time, as well as in the realm of practical politics, defiance of clear law is the characteristic symptom. Something must be done about it, if civilization is to be saved. And the measures taken must be as fundamental and as far-reaching as the words from Sinai.

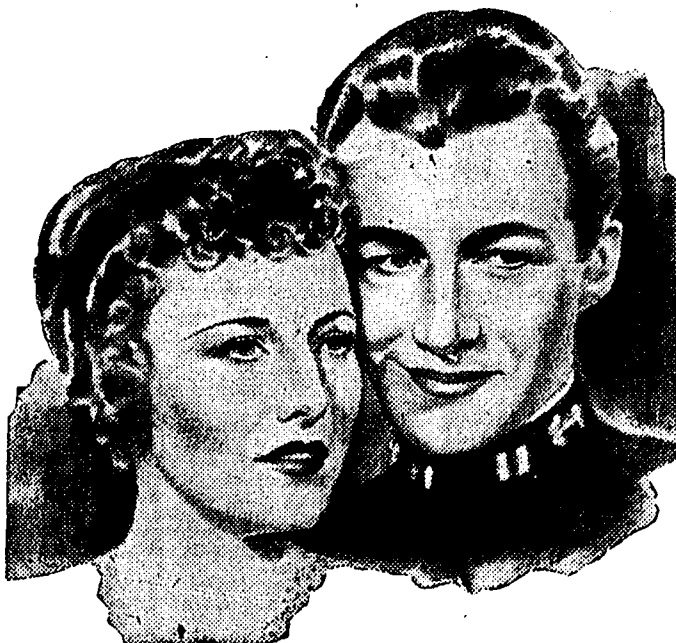

Every pupil in the land should be enlisted to preach repeatedly upon the Ten Commandments. Editorial writers should look beyond the day's events to the great principles involved. The shortest route to respect for civil law is obedience to the Divine Law. Only the Decalogue, as interpreted by Jesus, is adequate for this hour.

For the first table of the Law, which concerns man's obligation to God, is basic and necessary to the stabilizing of the other six Commandments. Jesus stated it in the phrase, "Thou shalt love the Lord thy God." That first, "Thou shalt love thy neighbor as thyself." Strifes would end, strife would cease, corruption would disappear from politics, wars would be only a hideous memory, if mankind could be led to live by the dicta of Moses, as interpreted by the Giver of the new Law.

SEVEN SENTENCE SERMONS. Men: No man to succeed, not to fail.—Thoreau. He is rich whose income is more than his expenses; and he is poor whose expenses exceed his income.—Bryce. Our times are in His hand. Who said, "A whole I planned." Youth shows but half; trust God: See all, nor be afraid.—Robert Browning.

The God who holds the sea in the hollow of His hand, who swings this ponderous earth in its orbit, who marshals stars and guides planets, is this very God who says, "If ye ask, I will do!"—James H. McConkey. The Commandments of the Lord

Stars In Real and Screen Romance

Barbara Stanwyck and Robert Taylor, who have given Hollywood's film colony its Number One off-screen romance, find their supreme dramatic opportunity together in "This Is My Affair," stirring dramatic Twentieth Century-Fox production which opens at the Palace Theatre Saturday night and runs through Tuesday.

are right rejoicing the heart.—Psalm 19.8.

As unto the bow the cord is,
So unto the man is woman;
Though she bends him she obeys him;
Though she draws him yet she follows.
Useless each without the other.
—Longfellow.

The longer I live, the more deeply I am convinced that which makes the only difference between one man and another—the great and the insignificant—is energy; invincible determination; a purpose once formed, then death or victory.—Buxton.

Revival Meeting At Kerens Has Closed

KERENS, Aug. 11.—(Spl.)—Sunday night marked the close of a very successful summer revival, held by the Baptists of Kerens in the tabernacle in the city park, under the direction of Dr. L. L. Carpenter, professor of Bible in Baylor University, conducting the services twice daily, and J. G. Strother of Fort Worth leading the song services. There were 41 additions to the local church.

Personal Mention.

KERENS, Aug. 11.—(Spl.)—Miss Ethel May Thomas of Waco is the house guest of Miss Aline Ivey this week. Mr. and Mrs. J. E. Martin of El Campo were spending the day guests of Miss Katherine Ivey, Sunday.

Joe Edwin Wilson was home for the week-end from Tyler. Herron Bomar of Corsicana was visiting friends in Kerens Sunday. Mr. and Mrs. J. T. Hale and family of Rockdale were Sunday guests of Mr. and Mrs. Homer Carroll, Virginia Hale remaining for a week's visit.

Mrs. Merle Kelly of Pharr, who has spent several weeks with her parents, Dr. and Mrs. D. B. Currie, was called home Monday on account of the illness of Mr. Kelly. Mr. and Mrs. Fred Hulan and two children, Henry D. and Carolyn, have returned from a week's visit in Galveston.

Mr. and Mrs. Homer Carroll had as their guests Sunday, Mr. and Mrs. Pat Loggins of Corsicana. Carroll Boswell of Barry is spending a week with his grandmother, Mrs. Oia Kimes, and aunt, Mrs. B. O. Hemphill.

Dr. and Mrs. Henry Hoffer and daughter, Mary Francis, spent Sunday in Kaufman with Dr. Hoffer's father, postmaster of that city.

Rev. and Mrs. M. O. Cheek and Lilla Mae and John Cheek, were in Marlin Tuesday. Joe Sheppard and son, Joe G. were Frost visitors Wednesday. Dwan and James Newton Bruner, young sons of Mr. and Mrs. Vernon Bruner, had their tonsils and adenoids removed in Dr. McClung's office Tuesday in Corsicana. Both are recuperating nicely.

R. S. Daniel of Corsicana spent Sunday with his father, R. H. Daniel. He was accompanied home by Mr. and Mrs. E. C. Newsome.

Barry Girl Weds

Corsicana Man On July Eighteenth

Mr. and Mrs. E. H. Ingram of Barry announce the marriage of their daughter, Bessie Nevine to Frank J. Beck, son of Mr. and Mrs. Rudolph Beck of Corsicana, the wedding having taken place July 18, in the study of the Very Rev. Msgr. V. Graffeo, priest of the local Catholic church.

The bride and bridegroom were attended by Mrs. B. K. Dellart and her brother, Frank Borsellino. Their many friends wish for them much happiness during their married life.

Dinner for Newlyweds. Mrs. Rudolph Beck entertained at her home, 307 East First avenue, Monday with a dinner honoring her son and daughter-in-law, Mr. and Mrs. Frank J. Beck, who were married July 18.

A lovely dinner was served to the members of the family and guests. A center piece of mixed flowers decorated the table. Out of town guests included Mrs. S. H. Parker and children of Trinidad and Will Anthony of Kilgore.—Contributed.

Birthday Dinner

Given In Home Of Mrs. Mary Bowman

Mrs. Mary Bowman, mother of R. B. Bowman of this city, was made very happy Sunday on her eighty-second birthday when her children, grandchildren, great-grandchildren and other relatives, neighbors and friends surprised her with a big dinner at her home in the Payne Springs community, near Mabank. Close to 100 persons enjoyed the picnic dinner with several coming in for the afternoon. She received many nice gifts.—Contributed.

SCHOOL CHILDREN OF NAVARRO COUNTY TO ATTEND EXPOSITION

DALLAS, Aug. 11.—(Spl.)—Organized movement of Texas school children to the Greater Texas and Pan-American Exposition will be formally inaugurated on Sept. 9. First district dates have been set for this and the following day for the children of Dallas, Rockwall, Kaufman, Ellis and Navarro counties.

Dates have been designated for every county in the state, and the information placed in the hands of county and city school superintendents. Frank N. Watson, assistant director general, has announced that these dates are merely suggestive and not arbitrary. If, for any reason, some other date between Sept. 9 and Oct. 31 is more convenient for any school or county, the same concessions will be granted them on the dates they choose.

These concessions mean a railroad rate of a half a cent a mile for the one-way fare, or a total of one cent a mile for the round-trip. Information as to requirements is in the hands of all local railroad agents having lines or connections into Dallas.

The Exposition has set up an office near the main entrance where information will be furnished the visitors, their baggage checked without charge, their group tickets of 25 cents each provided, their show concession rates given them, and details as to reasonable lodging quarters during their stay.

Gov. James V. Alford has proclaimed a holiday of two days for every school in the state, so that they may visit the international show. Credits will be given for the visit.

YOUNG NEGRO BOY ADMITS BURGLARY OF SILVER GRILL

An 11-year-old negro boy was arrested Tuesday afternoon by city officers in connection with the burglarizing of the Silver Grill sometime last Saturday night in which about \$80 in currency was taken and more than \$30 in change left behind. Chief of Police Bruce Nutt reported that the negro readily admitted entering the place and told what he had done with the money.

The negro was arrested by city officers about three weeks ago and transferred to county authorities in connection with the burglarizing of the Charm and the Sinclair Filling Station at the corner of West Seventh avenue and South Main street twice.

Local Swimmer to Enter State YMCA Meet Saturday

Bob Campbell, breast stroke swimmer, is to represent the Corsicana Y. M. C. A. Saturday night at the State Y. M. C. A. swimming meet at the University Park pool, Dallas, it was announced Wednesday by C. F. Broughton, physical director here. Campbell will participate in the 100 yard breast stroke event.

PARALYSIS

(Continued From Page One.)

Three patients died in Corsicana. Among 11 cases outside the city, none perished. Sunday school classes and two swimming pools there were closed voluntarily for a while, but were resumed.

Harris county (Houston) reported 19 cases since June 22. Three victims died. Only five of the cases are current. In Port Arthur and environs there were four cases under quarantine. In near-by Groves authorities asked public co-operation in preventing spread of the disease. Dr. P. J. Bay, city health officer, warned they would "enforce quarantine if it has to be done with an armed guard."

Fort Worth Had 17 Cases. Fort Worth's record for the year was 17 cases, only one of which was under quarantine today. Dr. H. Flicker, city health officer, recalled the figures were con-

Bus to Carry Local Students Tehuacana

C. A. Sutton, president of Westminster Junior College, Tehuacana, was in Corsicana Wednesday completing details in connection with the bus service that is to be operated from this city to the college.

It was pointed out by Mr. Sutton that approximately fifteen students in the Corsicana vicinity have signed up for the college and that a bus will be operated each day starting from Corsicana and picking up students in Richland and Wortham. The students will be delivered to their homes each day following classes. The round trip is about 60 miles.

"A modern commercial department has been added to the college studies," Mr. Sutton said.

"The bus route will start Sept. 6, opening day of the college."

KILLER

the keys. Payton floored him with a blow from his fist, and the commotion aroused the family.

The two sons and a police dog joined the struggle during which the tall, khaki-clad intruder drew an automatic pistol, killed Payton with the first shot, wounded the older son in the leg, and, as Mrs. Payton came to the garage, shot her through the stomach.

The man forced the wounded son to get the car keys and then sped away with the younger son as a hostage. However, he stopped the car suddenly a short distance from the house and pushed the youth from it.

Getting Only Forty

When you should be getting about fifty. Something is wrong with the speedometer. Perhaps it needs cleaning. Bring it to us.

TAYLOR'S MAGNETO HOUSE

Ice Cream Supper

At Rosane, Texas, Friday night, Aug. 19th. Benefit of Post Oak Cemetery. Everybody Invited. Committee

Life In Brief
Senator Black

WASHINGTON, Aug. 12.—(AP)—The life, in brief, of Senator Hugo Black of Alabama, nominated today to the supreme court:

1886—Born Clay county, Ala.

1906—Graduated, University of Alabama Law School.

1910—Birmingham police judge.

1915—Prosecuting attorney, Jefferson county (Birmingham) Alabama.

1917—Captain, field artillery, AEF.

1921—Married Josephine Foster of Birmingham.

1923—Elected U. S. senate.

1925—Headed senate air and ocean mail investigations.

1935—Conducted senate lobby investigation.

1938—Chairman labor committee.

1937—Nominated associate justice, U. S. supreme court.

BLACK

(Continued From Page One.)

ing immediate consideration of ask to have the name sent to committee.

Although Ashurst assumed to say the nomination would go to committee, there was an official announcement immediately from democratic leaders that they would not renew their demand for immediate action tomorrow.

The nomination of one who has served in the senate more than a decade, was received by the senate with no advance notice was coming. Leaders had planned to resume their battle over the pending anti-lynching bill.

From the press gallery above, newspapermen, also unaware of the surprise nomination, but sure from the activity on the floor that something unusual had occurred, rushed downstairs to obtain the news.

On Desk Several Minutes. The nomination of one of the vice-president's desk several minutes after it was received before there was any mention of it in debate.

Senator Johnson said that in view of the situation, which he said was fraught with danger to the country because of efforts to dominate the court, it was of paramount importance that the nomination should go to committee.

After action on the nomination was delayed the senate plunged into discussion of the pending motion by Senator Wagner (D-NY) to take up the Wagner-Van Nuys anti-lynching bill.

There was some division of opinion about the procedure on the Black nomination.

John L. Lewis, head of the committee for industrial organization, said Black "was an admirable appointment; one that will be applauded by the nation."

Pleading to Labor. William Green, president of the American Federation of labor, said the appointment "is both pleasing and satisfactory to labor."

Black has been a leader in advocating the administration's wage and hour legislation.

The senator was a world war captain.

He started law practice in Birmingham immediately after graduation from the University of Alabama in 1906.

He has served in the senate since 1926. He is 51 years old.

As a justice of the court Black will have an opportunity to pass on constitutionality of Roosevelt administration laws on which he voted in the senate.

Include Several Measures. They include the measures regulating public utility holding companies, authorizing federal loans and grants for publicly owned power plants, and fixing prices in the soft coal industry.

Supreme court experts said there was no law or regulation to prevent a senator from participating in decisions affecting legislation he assisted in having enacted. Whether justices disqualify themselves from passing on certain litigation is up to the individual jurist, it was explained.

Justices frequently disqualify themselves if they or a member of their family own stock in a company affected by the litigation or if they have had any previous connection as counsel for the company. Chief Justice Hughes last term failed to take part in a decision on litigation in which his son, Charles Evans Hughes, Jr., was one of the attorneys.

Black, if confirmed by his colleagues, will become the fifth member of the United States senate to step directly from the senate to the supreme court. The

supreme court places pays a salary of \$20,000 a year, or just twice the senator's pay of \$10,000.

SINO-JAP

(Continued From Page One.)

French, 600. A Russian volunteer company was summoned to duty. The American Marines took up patrol duty along the northern border of the International Settlement.

Troops Withdrawal Refused. At the "peace" conference Chinese refused to withdraw the troops pouring into the city. Japanese replied:

"There is nothing left, then, but to take up defensive positions."

The atmosphere of this jittery city of more than 3,000,000 was the same as that which preceded the Chinese-Japanese hostilities here in 1932. Americans fled to their international refuge.

But up to dusk not a shot was heard.

Northern portions of Shanghai about the Chapel and Kiankwan areas were considered doomed to be battlegrounds if the present Shanghai powder keg exploded.

The fringe of the expected trouble zone was deserted as Chinese patrols stamped past vacant houses and shops.

Closer to the international settlement, streets and alleys were jammed with Chinese fleeing from the prospective battlegrounds.

Many Jap Naval Units. Twenty-eight foreign men-of-war were tied up along Shanghai's riverfront. Twenty-one of them were Japanese—five light cruisers, nine destroyers, and seven gunboats.

Two British, three French, and two United States vessels were the "neutral" contingent. The American ships were a navy tanker and a small, obsolete gunboat.

United States Asiatic fleet units remained north, near Tsingtao and Chefoo, off the coast of Shanghai province.

Japanese labored into the night to make ready an airfield on Shanghai's eastern border. Swarms of Chinese coolies strained and groaned under Japanese direction.

As yet, no Japanese warplanes had arrived. At dusk, however, reports were that these planes were offshore on board unnamed aircraft carriers.

Unconfirmed reports from Hong-Kong and British forces there, numbering four battalions, were ordered to prepare to entrain for Shanghai if necessary.

The tension started Monday when Chinese militarized police killed a Japanese naval officer and seaman.

Joint Communication. NANKING, China, Aug. 12.—(AP)—Reliable reports late tonight said American, British, French and German ambassadors had dispatched a joint communication to both the Chinese and Japanese governments, expressing hope that foreign lives and property in Shanghai would be kept from danger.

Announcement

The Newsum Beauty Shop announces its opening Saturday, Aug. 14, at 110 West Collin street, with best equipment, expert graduate operators, and courteous treatment. Mrs. Newsum will be glad to see her friends and acquaintances, and the public at the opening Saturday. Phone 107 for appointment.

Fresh Flowers

Special fresh flowers for all occasions, are here to fill your orders at all times. Whatever you wish flowers for, you will like our selection and flower designing, as we are experienced florists.

TRENCH SILOS ARE OFFERED AS MONEY MAKERS TO FARMERS

ABOUT TWENTY UNITS IN COUNTY NOW; GOAL OF 200 BY END 1938

As a result of an intensive campaign during recent months, directed by County Agent H. C. Robinson, a total of eighteen trench silos have been constructed in Navarro county this year, and about ten more are contemplated. Only two existed in the county prior to this time, one on the Blankenship farm near Pettys Chapel and another on the L. I. Griffin farm, west of Corsicana.

In advocating the trench silos, the county agent asserted that they were the most economical means of storing and saving feed, since they were ratproof, storm proof, fireproof, suitable for any types of soil, and had been known to keep ensilage in good condition for at least ten years, and their construction required no extensive outlay of cash for materials and required no more machinery for preparing the contents than any other kind of storage. Another benefit of the silos is the manner in which it keeps the crops so stored. Mr. Robinson pointed out that all that is necessary when cane or hogra is used for silage is to add a small quantity of cottonseed meal, since the ensilage had the roughage, grains and greenstuff. The ensilage was reported quite palatable to all kinds of stock.

Construction Simple. It was pointed out that construction of the trench silos was a comparatively simple process; some care is needed in selection of a site in order that proper drainage might be secured and also that the feed supply shall be of easy access during the winter weather.

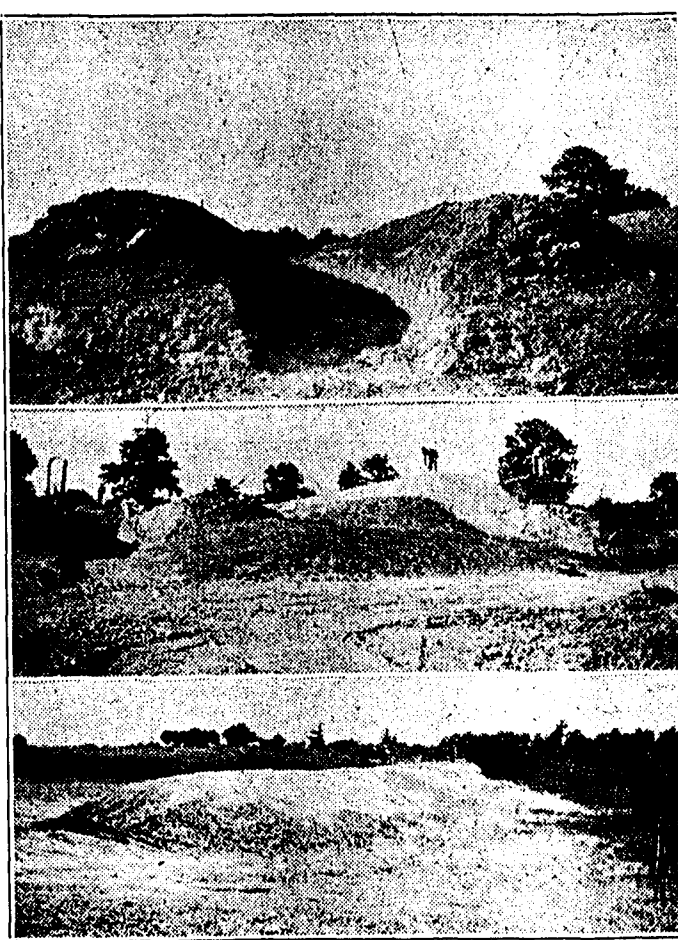

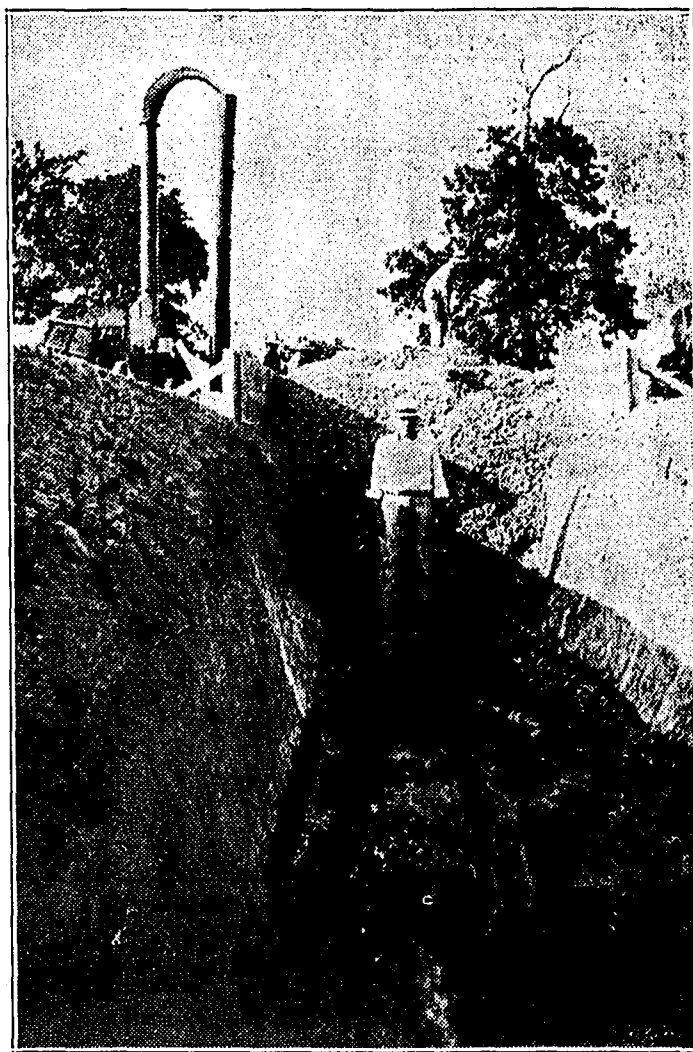

A minimum value of \$5 per ton on the ensilage was quoted by the county agent who also reported that prices ranged as high as \$10 last winter at the trenches. He estimated that the feed would be worth twice its minimum when used for finishing cattle or similar purposes when fresh feed was not available, and would bring a higher return per acre than cotton without half the cost of production, as well as utilizing land often not suited for other crops. It was also stated that the feed could be ground and then stored or stored in bundles with a minimum of effort.

One of the largest trench silo installations in the central portion of the county is located on the Charlie Davis place about ten miles west of Corsicana on Highway 21 near Pickett where a battery of four have been built within a few hundred feet of the road, each with a capacity of approximately 100 tons of ensilage.

In constructing his battery, Mr. Davis took advantage of a natural location, a small bluff near a small ravine. He filled in the ravine, and constructed a road to the units so that they could be reached in all kinds of weather. Each of the trenches is approximately 100 feet long and eight feet deep with the width ranging from six feet at the bottom to about 9 feet at the top.

One trench has already been filled with a mixture of red cane and hogra, and covered with a

Trench Silos Built On Navarro County Farms

layer of native dirt and a special topping of fine white sand; a second trench has been two-thirds filled and will be completed shortly. Tractor power and frescoes were used in the construction of the silos by Mr. Davis and the tractor is also utilized for operation of the ensilage grinder and blower.

Cost Is Small. Cost of construction of the four units was estimated at a maximum of \$200 making the cost of storage of the feed at most fifty cents per ton, regarded as a very reasonable figure and one that could not be approached using any other type of storage. The farm operator plans to use the feed for his dairy herd of some forty cows from which he sells the cream produced and uses the skim milk for feeding pigs. Mr. Davis is reported planning to construct additional units as his livestock herds are augmented.

Credit for constructing the first trench silo in this section has been given to J. F. (Fred) Martin on the Barham farm about two miles west of Blooming Grove. To care for the needs of his livestock, Mr. Martin built a unit with a capacity of 25 tons and has filled it with hogra.

Other silos have been built near Barry, Kerens, Rural Shade, and Richland and others are being planned. County Agent Robinson has announced that he hopes to see at least 200 trench units in the county by the end of next

year. Considerable emphasis has been laid on construction of trench silos in Navarro county by County Agent H. C. Robinson for the past several months as a good farming practice and the most economical means of storing feed for winter use.

The left hand picture shows a silo on the Charlie Davis farm near Pickett in process of being filled. The ensilage grinder and filled portion of the trench can be seen in the background. Some idea of the size may be obtained by comparing the height of the feed stack with the county agent standing in the foreground. Mr. Robinson stands six feet tall.

In the right hand panel, the top view shows one of the completed but unfilled silos on the Davis farm; the center view shows two of the battery of four trenches, with one of them getting the finishing touches on its covering, and the other being filled. The lower picture shows the completed job, and silo filled and covered and ready for use as needed.

The small picture on the right shows a silo recently constructed at Blooming Grove, the first in that area, and was built by J. F. (Fred) Martin.

WOMAN HELD

(Continued From Page One.)

and placed it in a locker at his office. Colorado Springs, Colo., police have been investigating the death there, Aug. 1, of George Obendorfer, 67, moderately wealthy Cincinnati cobbler, who, police say, was accompanied by the woman after she first had gone to the bank with him when he withdrew money for the trip.

Detective Walter Hart who filed year, and believed that it is one of the greatest investments that can be made.

the murder and larceny warrants against Mrs. Hahn said he was "not at liberty to divulge the basis for the action."

Mrs. Hahn, widow of a Vienna physician, denied knowledge of the case and contended, Lieut. George W. Schattell said, that she met Obendorfer "by chance" en route West.

Other Deaths Under Scrutiny. The three other deaths under inquiry were those of Jacob Wagner, 78; Albert Palmer, 72, and Ernst Kohler, an elderly teamster who died several years ago. Wagner's body was disinterred a week ago and portions of the viscera are being subjected to tests for poison, Schattell reported.

He said Mrs. Hahn cared for Kohler in his last illness and that she called Kohler bequeathed her the \$12,000 home in which she has resided with her telegrapher-husband.

George Hols, 63, a coal merchant who said he had been unable to walk since becoming ill from eating food offered by Mrs. Hahn, filed another larceny warrant charging theft of a \$75 diamond ring and \$140. Mrs. Hahn denies Hols' charge, insisting he gave her the ring during their short acquaintance.

Lt. Schattell said Mrs. Hahn admitted signing Wagner's name to a check for \$1,000 which she presented for payment the day of his death, June 3. The name was written in English, although Wagner could write only in German, Schattell said.

The officer also quoted her as admitting asking a Cincinnati building and loan association to transfer \$1,000 of Obendorfer's money to the Denver National Bank.

Dr. Willard K. Hills, who attended the cobbler before he died, said Mrs. Hahn brought Obendorfer to the hospital in a taxi, that he was in a stupor when he reached there and did not recover from it before his death two days later.

TYLER'S PUBLIC SCHOOL STUDENTS BE FINGERPRINTED

TYLER, Aug. 12.—(P)—If parents approve, Tyler's 7,000 school children will be fingerprinted when they start to school this fall.

The city safety council proposed and the school board approved such a plan to thwart any possible recurrence of the confusion arising from the New London school explosion this spring. In that tragedy many identifications were difficult to establish. Superintendent of schools, John Hodges said the plan would go into effect if parents agreed and that he expected little opposition inasmuch as the idea was to protect the children.

The council said the prints would be sent to Washington for permanent filing. The plan contemplates eventual fingerprinting of every person in the city.

Navarro County Agricultural Assn Will Meet Saturday

A meeting of the Navarro County Agriculture Association will be held at the Y. M. C. A. Saturday afternoon at 2:30 o'clock, H. J. Kent, director, announced Thursday.

Matters of vital importance to anyone interested in agriculture will be considered, Mr. Kent said.

Do you want to buy something? Phone 463 for classified rates.

COURT BILL SENT TO WHITE HOUSE BY HOUSE WEDNESDAY

FOUR MAJOR POINTS IN THE MEASURE; SUPREME COURT NOT MENTIONED

WASHINGTON, Aug. 11.—(P)—The house ended this session's bitter court controversy today by approving the lower court procedure bill and sending it to the White House.

The legislation was embodied in a conference report which the senate had accepted yesterday without a word of debate. Deleted from the measure were President Roosevelt's recommendations relating to the supreme court—the cause of a bitter senate fight.

Chairman Sumners, (D-Tex.) of the judiciary committee, presented the conference report.

The bill followed closely the agreement reached by senate leaders when the Roosevelt high court proposals were sidetracked. It contained four major points.

Direct appeal from lower courts to the supreme court in cases involving the constitutionality of acts of congress.

Intervention by the attorney general in lower court cases involving constitutionality of acts of congress.

Three-judge lower courts to sit in suits for injunctions to block enforcement of acts of congress.

Transfer of judges, within judicial circuits, to meet congestion.

DISASTER

(Continued From Page One.)

lapsed without warning. One minute there was only the steady din of rain pouring from black skies. Then came a terrific roar as the first two structures crashed.

Thousands of residents rushed to the scene, fearing a ruin that would pollute the water supply. Two priests stood with the rescue workers—the Rev. Edward Gobin of St. Peter's Church and the Rev. Edward Jordan of Sacred Heart church. They administered last rites to victims brought from the death-trap still breathing.

Two of the victims, Mr. and Mrs. Joseph Corral, of Staten Island, were visiting friends in one of the buildings, waiting for the rain to let up so they could go home, when the structure went down with a roar.

Rescue squads, comprising 350 police and firemen, worked feverishly with picks and shovels throughout the night. A searchlight, brought from Manhattan, glared on the wreckage.

Six of the dead were women, six were children, the others men.

Revised Death List: The revised death list follows: Mrs. Virginia Budick, 28, her son, Thomas, 2, and two daughters, Helen, 6, and Virginia, 4.

Francis Corral, 16, Louis Corral, 38, Melvin L. Decker, 35, Peter Fernandez, 37, Mary Hurley, 28, Patricia Hurley, 2, Adam Malicki, 26, and Besse Malicki, 20, his bride of a month.

Mary Peterson, 44, and her daughter, Louis, 6, Tony Pizypelski, 22, John Stokes, 72, Patrolman Joseph J. McBreen, Marie Silva, 26, and Mary Louise, 40.

Relatives of the dead or dying struggled to get through police lines, as bodies were brought out.

ROOSEVELT ABSENT FROM SENATORIAL HARMONY DINNER

"DOVE OF PEACE" FLUTTERED OVER HEADS OF DINERS; GARNER PRESIDED

WASHINGTON, Aug. 11.—(P)—Pledges of party harmony echoed among senate Democrats today, but the voice of President Roosevelt was missing from the chorus.

The president, because of "pressure of other things," did not attend the "harmony" dinner held last night by the Democratic senators, recently split over legislative issues.

He paid tribute to the honor guest—Senator Barkley and Kentucky, new majority leader—in a note, which said in part:

"He has two great gifts for which he ought to be thankful and for which we are truly grateful—a sense of perspective and a sense of humor which enables him to distinguish between the ridiculous and the serious."

Publicly there was no comment on the president's failure to attend.

Among those present was Senator Copeland of New York, who on Monday accused the president of destroying party harmony and of seeking reprisals against those who fought his court program.

There was no mention of these mundane things at the dinner, held amid music and merriment. A live pigeon, symbolizing a "dove of peace," fluttered about the banquet hall. Spun sugar doves nestled on the ice cream, and the place de resistance was squab.

Vice President Garner, who long has been working for party harmony, presided.

Two Young Dallas Women Killed In Automobile Crash

ALBANY, Aug. 11.—(P)—Two persons were killed and two injured in an accident this morning two miles east of Albany when the car in which they were riding overturned.

The car, a 1935 Buick, was driven by a young girl, who was uninjured. Gertrude Barnes, 22, and her cousin, Mrs. Zeina Syms, of Dallas, were instantly killed. Mrs. Syms' mother, Mrs. E. L. Tacker of Dallas, and sister-in-law, Mrs. Lester Tacker, who were injured, were taken to Hendrick Memorial Hospital in Abilene. No report of their condition had been given early this afternoon. Although it was said they were not seriously hurt.

Catherine Barnes, 15-year-old sister of Gertrude Barnes, was uninjured.

When Miss Gertrude Barnes, who was driving, attempted to pass a gasoline truck, their car overturned when it encountered a soft shoulder.

The group was going to New Mexico. The bodies of Miss Barnes and Mrs. Syms are in an Albany funeral home and will be taken to Hubbard City for burial. The injured women have not been notified of the death of their relatives.

D.M.S. J. T. NEWSON, Prop.

MORE COTTONSEED CRUSHED IN YEAR ENDING JULY 31ST

WASHINGTON, Aug. 12.—(P)—The census bureau reported today cottonseed crushed in the year ending July 31 totaled 4,498,372 tons, compared with 3,818,751 the previous year.

Cottonseed on hand at mills July 31 totaled 39,763, compared with 21,925 a year earlier.

Crude oil produced 1,364,227,000 pounds, compared with 1,163,736,415 the previous year, and on hand 9,684,412 pounds, compared with 10,191,508.

Refined oil produced 1,308,740,369 pounds compared with 318,873,305. Cake and meal produced 2,030,688 tons, compared with 1,738,583 and on hand 41,084 compared with 65,053.

Hulls produced 1,148,329 tons, compared with 987,849 and on hand 43,328 tons, compared with 23,803. Linters produced 1,131,295 running bales, compared with 76,215 and on hand 30,843 running bales compared with 43,319.

July imports of cottonseed oil were 672,000 pounds of crude and 9,940,075 of refined "entered directly for consumption." 204,280 of crude and 3,412,125 of refined "withdrawn from warehouse for consumption," and 6,921,777 of refined "entered directly into warehouse."

Some slipped under the ropes blocking off the disaster scene and claved at the jumbled tons of smashed brick and rain-soaked timbers.

While the hunt went on, four separate investigations were launched to determine responsibility for the catastrophe.

Deeply shocked by the tragedy, Police Commissioner Valentine headed one of the investigations, while others were conducted by the fire department, by District Attorney Frank Ives of Richmond county, and by Borough President Joseph Palma. Staten Island comprises the Borough of Richmond, one of five Boroughs that make up New York City.

Gather Evidence In E. H. R. Green Estate Litigation

DALLAS, Aug. 12.—(P)—Assistant Attorneys General Llewellyn P. Duke and Madden Hill set up headquarters today for the state's case in the Col. Edward H. R. Green estate litigation.

Another of the many hearings which have marked the fight over the "great fortune" left by the late railroad magnate will be held here Oct. 11. Duke and Hill were preparing for that. Texas, New York, Massachusetts and Florida are fighting for a share of tax money in addition to the battle for the estate between the Colonel's widow and sister.

Edith Wharton, Noted American Novelist, Dead

SANT BRICE SOUS BOIS, France, Aug. 12.—(P)—Edith Wharton, the noted American novelist, died yesterday at her Chateau near here, it was learned today.

The author of "Ethan Frome" and many other stories was 75 years old.

Death occurred at 5 p. m. yesterday, following an apoplectic stroke which she suffered early in the morning.

Miss Wharton will be buried in the Protestant cemetery at Versailles tomorrow.

She had lived in France for nearly 35 years.

PICTURE NEWS

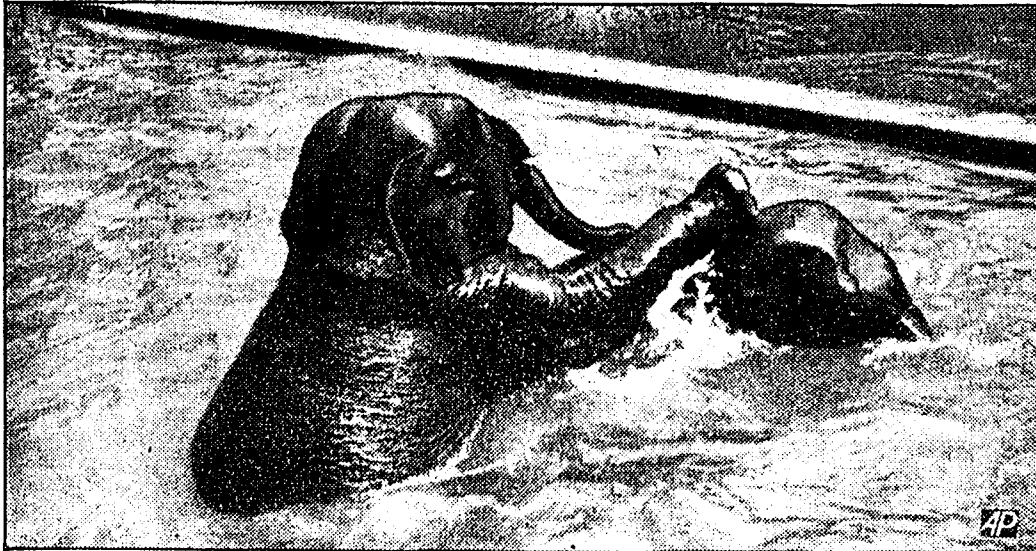

FOR THE BEST MAN, A BELT. To the winner of the world heavyweight championship fight in New York City on August 26, Great Britain's National Sporting Club will present this gold challenge belt. In the event that Joe Louis, present champion, defeats Tommy Farr, challenger, the Brown Bomber must agree to defend the belt in England. This stipulation is feared likely to cause trouble.

STEEPLEJILL FILLS BILL. When folks at Trezevant, Tenn., ordered someone to paint the town's tall water tower, they expected to get a burly male steeplejack, but were surprised to gaze aloft and see daring Marie Galloway on the job and enjoying her work thoroughly.

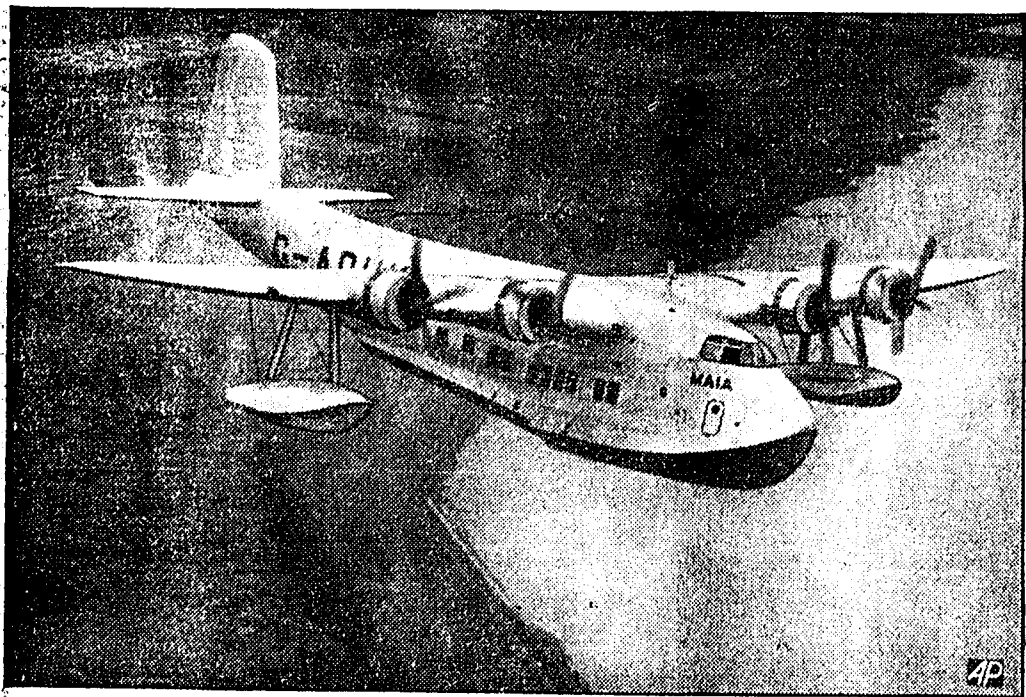

HIS SOX UP. Manager Jimmy Dykes of Chicago's White Sox, third-sacker, fights with the Yanks for American league leadership.

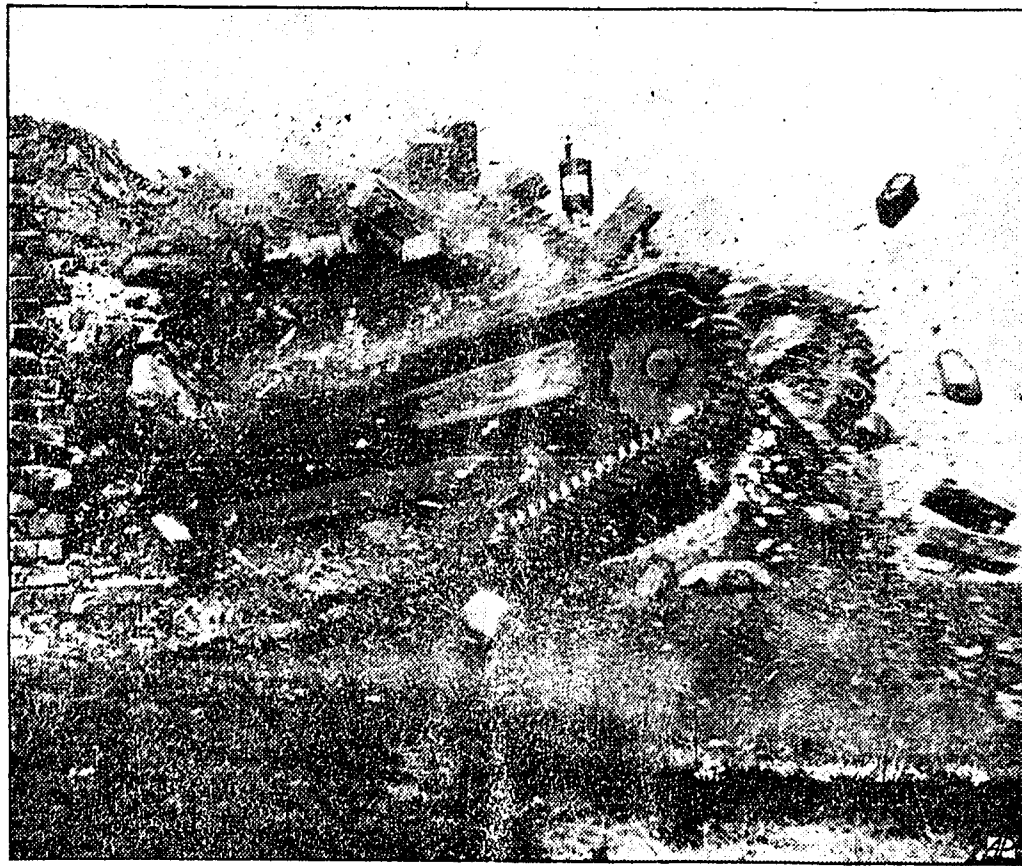

PACHYDERM PLAYMATES. Though ponderous of body and slow of thought, these two young elephants at Brooklyn's zoo are having a whale of a lot of fun as they good-naturedly duck each other and splash about in the cool waters of their big tub. Just the thing for those hot summer days, they seem to find, colossally cooling.

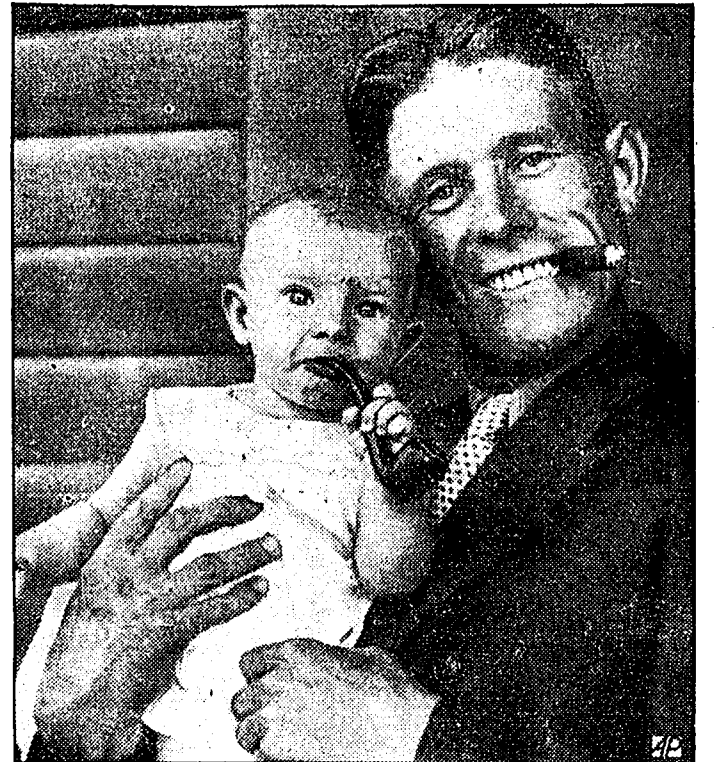

OFF TO CONGRESS. Scorning comforts of a motor car or even a raincoat, Gandhi is shown trudging through mud and tropical rain from his home village to attend a congress conference at Wardha, India. An assistant (right) holds the umbrella and carries papers in an old oil can.

AWAITS PIGGY-BACK BABY. Roaring over Rochester, England, on a successful test flight, this carrier plane for Imperial Airways' dual-plane scheme for trans-Atlantic service is ready for the small ship which will be carried "piggy-back" style into the air and launched from the wing. The object of the novel plan is to allow larger loads in the small machine.

PEACE... IT'S WONDERFUL. Walls of stone are no barriers for this powerful Austrian tank, shown in maneuvers near Bruck. Plowing along at high speed, this metal monster crashes headlong through a brick barricade as though it were made of matches. Modern rough riders man these machines as they hurtle some obstacles and plunge right through others.

PIPE THIS ONE. Six-month-old Patricia Benefield really takes her "after bottle" smoke as she is shown doing here in Atlanta, Ga., with Papa Lucius Benefield who prefers his "weed" in cigar form. Benefield says his daughter started smoking five weeks ago.

SOME TALL CROONING. Molly O'Connor looks up to William Olding as though she expects big things of the world's tallest crooner. Olding stands seven feet, six inches, and should be able to reach those high notes with ease. Both belong to a London band.

TIDE-Y ATTIRE. This beach ensemble is of printed linen with black ground and red, yellow and green pattern.

PALS FOR 60 YEARS. Barney Kelly, Ashland, Pa., an anthracite miner, was a lad of 18 when he started playing the fiddle. He still plays today. Now, at 78, he's one of the masters of old-time tunes and minstrelsy and is called upon frequently to perform.

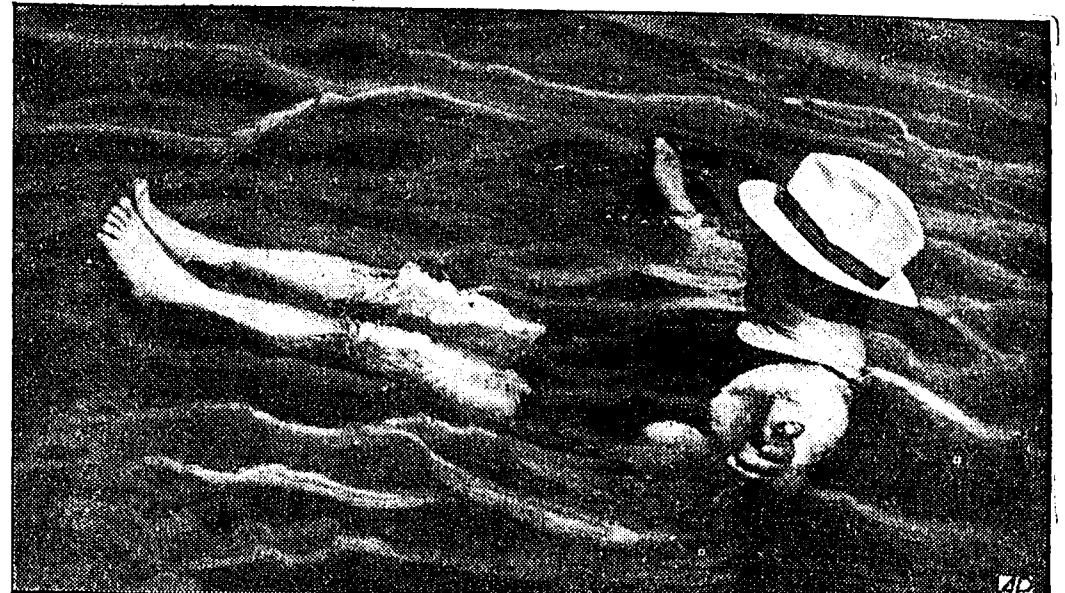

FAST WORKER. Captain Pierre Thoreux goes places in a hurry. He shipped the Normandie to a new trans-Atlantic record in less than four days.

NIGERIAN STRIP-TEASE. Showing their faces for the first time since leaving Nigeria, the Emir of Katsina's chief wife (left) and the wife of his brother face the camera at Plymouth, England, as the Emir arrives for an eye operation. It is forbidden that anyone but a white man see their faces.

MAN OVERBOARD. Helen Wills Moody (right), former tennis queen, enjoys boating near Glenbrook, Nevada, where she is living to establish residence pending divorce action. Shown with her on Lake Tahoe is Miss Florence Loomis.

SIMPLY CORKING. It's a great treat to put the old body in the cooling waters of Great Salt Lake during the Utah summer. Swimmers there know a lot of smart tricks, such as wearing a straw hat, because no one has to worry about sinking in this salty sea.

JURY ASSESSES PUNISHMENT OF NEGRO 99 YEARS

HUGHEY FULTON IS FOUND GUILTY OF MURDER IN DISTRICT COURT HERE

Hughey Fulton, Henderson county negro, was found "guilty of murder with malice" and his punishment was assessed at 99 years in the penitentiary in the verdict returned Wednesday morning by a jury to District Judge Wayne R. Howell in Thirteenth judicial district court. The jury had deliberated since 10 p. m. Monday.

The accused negro was tried here on a charge of venue from Henderson county on a murder indictment for the death of W. T. German, Stockard, Henderson county farmer, Sept. 25, 1934. He received the death penalty on a former trial in Henderson county but the case was reversed and remanded by the court of criminal appeals because a change of venue had not been granted there. The state maintained the defendant, Elmer Pruett (who has been electrocuted on a companion case), and Arlo Cook, negroes, robbed Mr. and Mrs. German, killed them and then burned their bodies in their own home. The defendant repudiated a signed confession during his trial and maintained he had no connection with the crimes. The jury announced it had reached a verdict at 9:55 a. m. Wednesday and it was delivered to Judge Howell and read in open court at 10:27 a. m. Attorneys in the case were not present when the jury reached a verdict and they were summoned before the jury came down from their deliberating quarters on the third floor of the courthouse. Many Henderson county citizens attended all sessions of the trial but none was in the courtroom when the verdict was announced. Ramsey Cox, defense attorney, stated immediately after the verdict was handed down, that no motion for a new trial was con-

NOTIFIED HE WAS THROUGH LUBBOCK CHIEF OPENS JAIL

SEVEN PRISONERS FREED; CHARGES FAVORITISM IN PROSECUTIONS

LUBBOCK, Aug. 10.—(P)—In a locally unprecedented "coup" that opened the coop, Police Chief H. L. (Bud) Johnson, who had been asked by the city commission to turn in his resignation Thursday, this morning unlocked the doors of the city jail to seven persons charged with drunkenness and left the lockup as bare as Old Mother Hubbard's cupboard.

His action, he said, was another clap at what he termed "class legislation and enforcement" in the office of City Attorney Durwood H. Bradley, with whom he had clashed recently when three persons arrested by police and charged with drunkenness were released when Bradley refused to prosecute.

"I turned out the seven men myself," said the chief, "because I didn't want anyone else to take the rap for what I consider right." He charged that "money more than justice" seems to dictate procedure in handling drunkenness cases here. As long as I am chief of police and they want to junk the recognized procedure, then I'll scrap it just as they do.

"From here out, for the rest of my two days, I've informed my officers to arrest all persons who are drunk, but to hold them only so long as is necessary to sober them and prevent their being a menace to themselves and to others—and not to assess fines against them."

"If those with money are not prosecuted, then those with no money will not be while I'm still here."

"If some can be turned out of jail, then others can."

"I know—have the key," Johnson will be succeeded by Don Reeder, former assistant chief and more lately police identification officer.

templated, indicating the case would not be appealed.

PRESIDENT SIGNED INTERIOR SUPPLY BILL RELUCTANTLY

ROOSEVELT OBJECTED PARTICULARLY TO TEN MILLION INCREASE IN FUND

WASHINGTON, Aug. 10.—(P)—President Roosevelt said today he had signed "with much reluctance" the \$132,732,000 interior department supply bill which provided for reclamation, education and many other activities.

The chief executive objected particularly to a \$10,000,000 increase in the vocational education fund and said he would "carry out what obviously is the intent of congress" by using only such portion "as can properly and usefully be spent."

As approved the item was \$14,483,000.

He blamed activity behind the increase on "a single, interested source"—which he did not name. The President said the advisory committee on education which he appointed last September to study the experience under the existing federal aid program was unanimous in recommending uncutting of the program.

It was not in favor, however, the President said, of enlarging federal support until consideration was given the whole subject of federal relations to state and local conduct of education of all types.

In view of the above, it is clear that I would be subject to censure if any of the \$14,483,000 appropriated in this act for vocational training were spent inefficiently or inadvisedly," Mr. Roosevelt said in a formal statement.

Will Use Judgment.

"The congress having appropriated the money to the extent of \$10,000,000 more than was recommended, I will, therefore, carry out what is obviously the intention of the congress—that as much of the total sum shall be expended during the current fiscal year as can properly and usefully be spent—no more and no less."

The President said it would be

Iraq Officials Reported Been Assassinated

JERUSALEM, Aug. 12.—(P)—Reports from Baghdad said today that Major General Bekr Sidki Paasha, Iraq minister of defense, and colonel Mohamed Ali Jawad, chief of Iraq's air force had been assassinated.

An official announcement issued later at Baghdad, said a soldier fired many bullets into the minister and that Col. Jawad was killed when he tried to save his chief's life.

The assassin was seized and authorities were trying to find out why he did it.

"premature to launch a greatly expanded program in certain fields of vocational education before the report and recommendations of the committee studying these problems are available for consideration."

He added much of the apparent demand for immediate extension of the program "appears to have been stimulated by an active lobby of vocational teachers, supervisors and administrative officers in the field of vocational education, who are interested in the emoluments paid in part from federal funds."

Personal Training Needed.

He said his special committee found the training of personnel necessary for extension and improvement of vocational education unless certification standards are materially reduced and teachers are employed who are not well qualified.

"In many instances, vocational education is already suffering from poorly-equipped teachers, and it would be a grave mistake to dilute the standards of teaching still further."

The President said the committee also had determined that the basis for distribution of funds among the states tended in many cases to increase rather than to decrease inequalities in educational opportunity.

Situation Serious For Storm Victims; Garitty Urges Immediate Funds

With temporary relief measures well under way and preparatory work to rehabilitation advancing rapidly under the direction of skilled case workers, J. N. Garitty, chairman of the Navarro County Chapter of the American Red Cross, renewed his appeal Wednesday to residents of Central Texas to supply the funds needed immediately. A minimum of \$15,000 is sought, and Albert Evans, director of disaster relief, said Wednesday that field reports indicated that a minimum of 160 families had been seriously affected by the storm of last Thursday.

Mr. Garitty said Wednesday that he attributed the slowness of the response of local citizens to the unspectacular aspects of the situation resulting from the storm, and asserted that even after visiting the affected localities, many people did not realize the seriousness of the plight of the people in the stricken belt. The county chairman recalled that the county responded generously to appeals for assistance in the flood area earlier in the year, and indicated that he believed the people would respond to the present need as soon as they realized the true conditions.

HELP!

FREE VACCINATION AGAINST TYPHOID FOR STORM VICTIMS

Beginning Friday morning, Aug. 13, all persons who are within the storm stricken area of the county will have the opportunity of receiving typhoid immunization through the State Health Department. It was announced today by Dr. H. Burnett, county health officer. The health department is giving this service in co-operation with physicians of Navarro county, Dr. Burnett said.

The following places have been selected for giving the typhoid vaccine: Tupelo, Friday, 9 a. m., at the residence of Mrs. Minnie Rutherford; Chatfield, Friday, 1:30 p. m., at the Chatfield school house; and Emhouse, Saturday at 9 a. m. at the Emhouse school house.

Statement Issued.

In a statement to the Daily Sun and Semi-Weekly Light this morning, Dr. Burnett said: "The physicians of the county feel this vaccination against typhoid is very necessary on account of the extent of the area affected and it being the season of the year of usual beginning of typhoid fever."

Typhoid is usually contracted through water or milk supply or conveyed by flies to food supplies. So if anyone is not sure of the purity of his water, it should be boiled before using, and breeding places of flies disposed of.

Should the health department overlook anyone desiring vaccination, the local physicians are in a position to supply and administer the vaccine, without cost to anyone in the storm area. Those overlooked should, however, make this known to the officers of the local State Health Department or the local Red Cross before reporting to local physicians, in order that a record may be kept of the case.

Cotton Crop Of Texas Estimated High This Year

AUSTIN, Aug. 11.—(P)—The department of agriculture today forecast a Texas cotton crop of 4,314,000 bales of 500 pounds gross weight.

The crop reporting board of the department said the forecast was based on conditions August 1 and the final outcome would depend upon various influences affecting cotton during the remainder of the season.

The estimate compared with 2,933,000 bales produced last year, 2,965,000 in 1935 and an average production for the five-year period ended in 1932 of 4,580,000. The condition of the crop, 82 per cent, was normal, indicated a lint yield of 185 pounds per acre, the board said. The yield in 1936 was 121, and in 1935 was 133. The only area where prospects were reported generally poor was in parts of Southwest Texas where cotton is relatively unimportant.

Galveston Wheat Exports Soaring To New Heights

GALVESTON, Aug. 11.—(P)—Texas' bumper crop and increasing foreign needs are making a big-time wheat exporting port of this city.

From July, 1936, the export total last month had risen to 1,535,424 bushels, George B. Ed-wardson, chief inspector of the grain inspection department, reported yesterday.

The increase was 1,479,424. During the entire season last year only 308,500 bushels were exported. Most of the golden grain last month was destined for French ports, Rotterdam, Antwerp, Oslo, Havre and Copenhagen.

Galveston had a Texas monopoly on the export of wheat. Houston, Texas City and Corpus Christi shipped out none, although Houston exported 1,270,650 pounds of flour during the month.

DAVID M. PICTON, MARINE CONTRACTOR, DIES AT ROCKPORT

ROCKPORT, Aug. 12.—(P)—David M. Picton, Sr., 73, died this morning at his home here.

Mr. Picton was president of D. M. Picton Company, marine contractors of Port Arthur. He is survived by five sons, Da-

vid M. Picton, Jr., of Houston; Charles T. Picton of Rockport; John H. Picton of Rockport; and William M. Picton and E. P. Picton of Port Arthur; and two daughters, Miss Vivian Picton and Miss Velma Picton of Rockport. A native of Mobile, Alabama, Mr. Picton was born July 8, 1864. He married Miss Fannie Ellen Hynes of Refugio county, Texas, in 1887. He had been a prominent resident of Texas for many years.

Funeral services will be held Friday morning with burial in Rockport.

For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully a.s.e. must be enclosed. Address: Miss Forbes in care of this paper.

DO YOUR OWN HAIR

Save money this summer, Miss Forbes suggests, by doing your hair yourself. She tells you how you can make it look as well as any professional hair dresser can.

Some of my readers, about this time, will begin to think of saving money toward a summer wardrobe. Why not save a bit by doing your own hair? The next six weeks or so? Think of the extra hats and bright scarves which money will buy. If your hair is rather short, for a hot weather comb over it, so much the better.

But even quite long hair is manageable, at least in the simplified styles which look best at this time of the year.

First of all, buy yourself some of the new soluble oils which come for shampooing, there are several in the shops and all of them good. Of course they come under trade names, but if they are made of an oil which you rub on the scalp, work into a lather with a little water and then rinse off with water, you'll know you are buying the right thing.

This is the only sort of shampoo you should ever use in the hot weather, when your hair is exposed to sun and the hot dry air. It happens also to be the only sort of shampoo you should use for dyed or bleached hair and for hair that is to have, or soon will have, a permanent. In other words, for dry hair.

Rub one to two tablespoonsful of the oil into the scalp, and add a few drops of water from time to time. A sticky sort of lather will appear. Keep on rubbing. Add half a cup of water or enough to wet all the hair, so every bit is finally covered with this sticky mixture. Then simply rinse off with very warm water then not so warm, finally cool water. To make quite sure you have a clear rinse, add the juice of a lemon, or a couple of tablespoonsful of vinegar to the last cool rinse, pouring this water over and over the head. Rinse again with clear water.

Push into one of the rollers and curlers which the shops sell.

K. D.—The tonic will help your scalp no matter what the trouble is, but if some physical difficulty is causing the loss of color in the hair, that must be cleared up before there is complete restoration.

T. L. C.—There could be no harm done to the skin, even though it did get to be sensitive from too frequent applications of peroxide. It would feel a bit sore but that would pass off in a few days without the applications. If all the hair grew again after having the electric needle used on each single hair, you must have had an inexperienced operator do the work. A certain per cent of these objectionable hairs will survive, although they will show they are weaker. A second treatment will always finish them. The constant bleaching will often weaken such hair also, but it does not do this in enough cases to warrant it as being a cure.

N. B.—Cocoa butter is a heavy oil, sold in cake form, that you use for massaging portions of the body that need building and fattening. You warm the surface slightly, and rub the palm of the hand over it, the same palm that is being used for the massage. Cocoa butter is also used in creams, as it makes a very smooth and rich mixture.

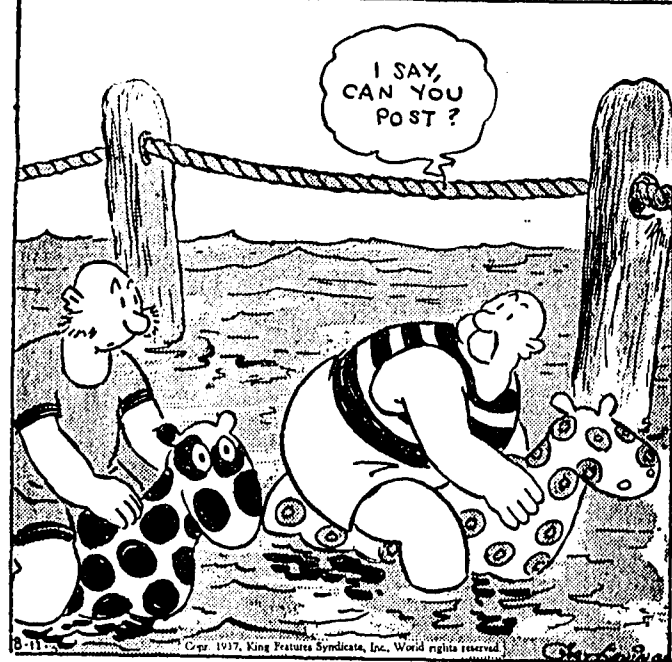

Mrs. F. D.—When requesting a mailed reply, a stamped, self-addressed envelope should be included in your letter of inquiry.

UNCERTAINTY OVER LEGISLATION PUTS CONGRESS IN MUDDLE

FARM AND SUGAR CONTROL AND WAGE AND HOUR BILLS TROUBLESOME

WASHINGTON, Aug. 11.—(AP)—Uncertainty over farm and sugar control and wage-hour legislation threw congress today into a pre-arranged muddle.

No administration official in Capitol Hill would predict what might happen to those three measures.

The house rules committee met to discuss giving the wage-hour bill the right of way on the floor. Some members insisted that opponents had enough strength in the committee to block it unless they were assured a farm program would be enacted before January.

Majority Leader Burnham said the wage-hour bill faced a "tight squeeze" but expressed confidence it would be brought before the house late this week.

Complicating the situation was comment from President Roosevelt which some legislators interpreted to mean a special session to act on farm legislation might be necessary.

A sizeable bloc of congressmen has been clamoring for crop loans, particularly on cotton, to strengthen prices. Mr. Roosevelt has said he would not authorize such loans without assurance that congress would pass a bill to control crop surpluses.

When a reporter remarked yesterday that there would be no loans if there was no control legislation by January, the Chief Executive replied he guessed that was right.

Would Make Loans Available. Chairman Johnson (D-Okla.) of the house democratic steering committee, however, said he had advised that if congress adopted a resolution to give a farm bill priority at the start of the 1938 congress, the President would go ahead with loans. Resolutions are pending in both senate and house.

The sugar bill won the approval of the senate finance committee yesterday after Chairman Harrison (D-Miss) called at the white house.

A modified provision, adopted by the house, restricting imports of refined sugar from Hawaii and Puerto Rico. The committee proposed "freezing" refined quotas.

Whether the amended bill would pass through the senate is far from certain. Administration objections and the threat of a veto was not yet discernible.

In place of the usually well-defined program for handling major bills toward the close of the session, the house leaders would not say definitely what would reach day a wheat crop insurance bill the floor next.

They had hoped to take up to bill, both of which have passed the senate. Committees, however, delayed their recommendations.

Court Bill Near Passage. Only house approval of a compromise conference report was needed to complete congressional action on the court procedure bill, a skeleton of the President's original proposal.

The house ways and means committee will meet tomorrow to examine a bill to close tax loopholes. Chairman Doughton (D-NC) said it would probably be passed in a week.

A government reorganization bill, approved late yesterday by a special house committee, contains provisions over which a controversy may develop.

It would give the President power for two years to reshape the executive branch, aside from regulatory, independent agencies.

Rep. Warren (D-NC), it author, said it might be called up for debate Friday or Saturday.

Both house and senate means were disposing of less important measures. The house approved yesterday a bill to revise the bankruptcy laws for the first time in 39 years.

There was one sure sign of adjournment was near. The senate gave permission to republican leader McNary of Oregon to leave for home tomorrow.

WASHINGTON, Aug. 11.—(AP)—Carl Hinton, manager of the Texas Panhandle water conservation district, said today he expected Secretary Wallace to appear before the house appropriations committee in behalf of the submarginal land purchase provision of the farm tenancy bill.

Hinton, who came here from Amarillo to further drought control work for federal aid, said Acting Chairman Clarence Cannon (D-Mo.) of the appropriations committee has taken "an arbitrary stand against the provision and does not want to approve a \$10,000,000 appropriation for its administration."

"Cannon seems to be against appropriating the money because we don't know now just what land will be purchased," said Hinton.

"I understand that from the agriculture department that Wallace may appear before the committee to explain how the provision can be administered."

Signs Oil Compact Bill. WASHINGTON, Aug. 11.—(AP)—President Roosevelt today signed legislation extending until Sept. 1, 1939, congressional consent to the interstate compact to conserve oil and gas. It was signed originally in 1935.

House Bill Approved. WASHINGTON, Aug. 11.—(AP)—The senate interstate commerce committee approved a house bill today for regulation by the federal power commission of the transportation and sale of natural gas.

The bill recommended without amendment would permit the power commission to regulate all rates and charges, extensions of service, and other operating procedure of natural gas companies.

Senators for violation of the act would be fined up to \$5,000 or imprisoned up to two years, or both.

May Be Made Cotton Office. WASHINGTON, Aug. 11.—(AP)—Representative Lyndon Johnson of Austin, Texas, said today the treasury has ordered an inspection of the third floor of the old postoffice building in Austin to determine

Honored By Civitans

JUDGE B. W. GEORGE

MAKING CHANGES IN JR-HI BUILDING AS MEASURE OF SAFETY

Work was started yesterday on the removal of the spires, superfluous chimneys, porch coverings, outside decorative columns and other loose bricks and masonry fragments on the old junior high school building on West Fifth avenue, following recent recommendations by two school plant engineers of the state department of education. Earl Smalling, school engineer, and a corps of assistants are doing the work, which is expected to take between ten days and two weeks.

Changes to Be Made. Other changes to be made in the building will include changing the classroom doors to swing outward from the rooms; closing off the basement and third floor and lining the boiler room with fire-resisting materials. Eight rooms, in addition to the band room, are used each year in the building, four on the first floor and four on the second floor.

School officials pointed out today that the work is only of a temporary nature, and they do not feel that it will render the building suitable for permanent occupancy as a classroom building. They said it is hoped the work will take care of the situation until the matter can be carried to the citizens of Corsicana for them to make whatever disposition they deem proper.

Building Inspected. Following the New London school explosion last spring, a group of Parent-Teacher Association members met with the board of education and asked that the interest of safety for the children, that the building be thoroughly inspected and examined by competent engineers. The two engineers made their report and in it were a number of suggestions, among which were the ones outlined above as being recommended for the safety of the building.

The committee, together with members of the board of education, met with the city commission last week and asked that the plan be worked out whereby the situation could be remedied, but no action was taken.

Following the cost of remodeling it for a cotton classification laboratory. The work would cost several thousand dollars and would include installation of a skylight, Johnson said.

Hurricane Service In Gulf Proposed

WASHINGTON, Aug. 11.—(AP)—Rear Admiral R. R. Waesche, commander of the Coast Guard service, said today he had wired the division commander at Mobile, Ala., the following instructions regarding hurricane patrol service in Gulf waters:

"Headquarters deems it advisable and will therefore, approve of your detailing, at such time as the duties of the vessels of your division will permit, an able vessel to patrol the Gulf of Mexico to be determined by you, for patrol in the Central Gulf for the purpose of transmitting weather reports to appropriate stations. It would be expected that the vessel so detailed would be free to avoid the severity of any hurricane by appropriate maneuvering and navigation."

Signs Oil Compact Bill. WASHINGTON, Aug. 11.—(AP)—President Roosevelt today signed legislation extending until Sept. 1, 1939, congressional consent to the interstate compact to conserve oil and gas. It was signed originally in 1935.

House Bill Approved. WASHINGTON, Aug. 11.—(AP)—The senate interstate commerce committee approved a house bill today for regulation by the federal power commission of the transportation and sale of natural gas.

The bill recommended without amendment would permit the power commission to regulate all rates and charges, extensions of service, and other operating procedure of natural gas companies.

BALLARD W. GEORGE PAID TRIBUTE HERE BY FRIENDS TODAY

JUDGE CIVIL COURT APPEALS HONORED BY CIVITAN CLUB AT LUNCHEON

Ballard W. George, former Corsicana attorney and member of the Civitan club, who is now associate Justice of the Court of Civil Appeals, Waco, was honored by the Civitan club and a number of his friends at the club's noon luncheon today at the Navarro hotel. Beauford H. Jester was the principal speaker, and paid tribute to Mr. George's attributes and abilities which the speaker said "make him the right man for Governor Allred to select for such a high position."

In charge of the program were Dr. J. Wilson David, Jack Thompson and Charles T. Banister. President Ed Wendorf appointed Dr. H. A. Juergemann and J. C. Eul as next speaker's program committee.

Visitors today were Mr. A. Spurgeon, Judge C. L. Jester, R. W. Knight and Tom L. Tyson. The club voted to give \$20, which had been set aside by the school officials to pay for the operation of a Red Cross highway first aid station, to the Red Cross storm relief fund being raised here.

Dr. David introduced Robert Key, a student of the state department of education, and a corps of assistants are doing the work, which is expected to take between ten days and two weeks.

Changes to Be Made. Other changes to be made in the building will include changing the classroom doors to swing outward from the rooms; closing off the basement and third floor and lining the boiler room with fire-resisting materials.

Eight rooms, in addition to the band room, are used each year in the building, four on the first floor and four on the second floor.

SCHOOL MISTRESS FACED TRIAL ON CHARGES SHE TAUGHT PUPILS THAT MAN CAME FROM MONKEY

WAYNESBURG, Pa., Aug. 11.—(AP)—In a hot, gas-lit country school jammed with over-crowded farmers and ginghamed housewives, a discharged school mistress today faced trial on charges that she had taught her pupils that a man came from a monkey.

Middle-aged Mrs. Laura Elms Morris, charged with cruelty and incompetence, was brought to trial today on charges that she had taught her pupils that a man came from a monkey.

A hearing on the charges turned for the second time to an investigation of the teaching of Darwin's theory after counsel for the Whiteley township school board recalled four pupils to "get at the bottom of this monkey business."

A student testified at a session last week that Mrs. Morris taught "men came from monkeys."

The hearing moved on past midnight and testimony was completed by the board of trustees and a state highway department mechanic reserved until Friday their decision on whether to re-employ Mrs. Morris.

The teacher denied the charges and demanded the removal of the new teacher's tenure act.

Jack Jones, a stocky seventh grade student testified Mrs. Morris discussed evolution while explaining a picture of a man who was "covered with hair."

"She told us he was a man who just lost his tail and by licking his tail he changed from a monkey into a man and started to live in a cave," explained the boy, a brother of Eugene Jones who Mrs. Morris said she paddled with the board.

Red-haired Kathleen Dodds, 14, another witness asserted Mrs. Morris talked of evolution "every other week."

Mrs. Morris, testifying in her own defense said she discussed an article on evolution in a magazine, but added:

"Upon my oath I told them it was a joke."

She asserted the children had asked her about the picture of a "hairy man" in a history book and she had explained that "Mr. Darwin had a theory which many people laughed at, that the human race came from monkeys."

She denied she had told them the hairy man was a monkey and that he had become a man when he lost his tail.

HOUSE COMMITTEE DECIDES AGAINST PROBE SALE BOOKS

WASHINGTON, Aug. 10.—(AP)—The campus of a co-ed college doesn't have any edge on congress when it comes to providing background for romance.

A check-up on members who married while in office showed today that bachelors left in the house and senate are few and far between.

Lawmakers marry presidents' daughters, waitresses, models, debutantes, nurses—and daughters of other congressmen.

At least half a dozen married their secretaries. A few have raised offices of other members.

Rep. S. Otis Bland (D-Va.) threatened several years ago to employ only men after two of his secretaries in succession married congressmen.

Paul Kvale (R-Linn) and Frank Murphy, former Ohio representative, were the marauding grooms.

Reuben T. Wood, representative from Missouri, brought his co-secretary-bride to Washington this year.

Two senators whose wives once were their secretaries are Charles McNary (R-Ore.) and Robert McNary (R-Ore.).

Senator William G. McAdoo (D-Calif.) found two of his wives in Washington. He married his second wife, the daughter of President Roosevelt, daughter of President Theodore Roosevelt, in the White House also.

In 1930 Charles Timberlake, wealthy former representative from Colorado, married the age of 75. His bride was Mrs. Robert Wood Elliott, 32-year old widow who had been head waitress at Timberlake's hotel restaurant.

Representative Harry Connell (D-Mont.) flew here with his bride, a former model, this year.

Aaron L. Ford (D-Miss) married Miss Gertrude Castellow, daughter of a former Florida representative, last October.

CONGRESS

(Continued From Page One.) brought to bear that will persuade this committee to grant a rule for its debate."

Administration leaders, stymied by the committee's refusal to accept considering several methods of overcoming the opposition.

An influential member said they might attempt to suspend the rules Monday and bring up the bill without waiting for the committee. This would require a two-thirds vote.

"Even if this should fail," the member said, "we would demonstrate there are enough votes in the house to pass the bill."

He explained it was hoped such a "show of strength" would induce the rules committee to act favorably on the legislation.

Another controversial subject still before congress was the demand of farm-belt and southern members for price-stabilizing crop loans. The administration apparently remained unshaken, however, in its position that congress must guarantee first to provide crop production continuing crop loans.

The senate agriculture committee invited Secretary Wallace to discuss the situation today.

The wage-hour and farm price measures were not the only recommendations of President Roosevelt which congress has not enacted.

The Wagner low-cost housing bill, which also has passed the senate, is making little progress in the house banking committee.

Members of the house ways and means committee said they would have ready by Saturday a bill to close tax loopholes.

It will go on next week's schedule, along with the third and last deficiency appropriation bill.

A bill to grant the chief executive power to reorganize government agencies tentatively was scheduled for house consideration tomorrow. It was one of Mr. Roosevelt's first recommendations last winter, but there is little expectation the senate will consider it at this session.

Some of his other proposals, such as the creation of regional planning boards, like the Tennessee valley authority, also will hold over until 1938.

One measure on the administration's legislative agenda did clear congress yesterday, and went to the White House. It was the lower court procedure bill, but it was only a remnant of the President's original judiciary reorganization program.

River Harbor Contracts Approved WASHINGTON, Aug. 12.—(AP)—The war department announced today division engineers had approved approximately \$2,000,000 in contracts for river and harbor improvements throughout the country.

The contract awards included: Jahneke Service, Inc., New Orleans, \$352,228 for dredging the Neches river channel Sabine-Neches Waterway Texas.

Warranty Deeds. Mrs. Minnie Sutton to Mrs. Adele (Sutton) Farr, part of Block 404, Corsicana, \$1 and other considerations.

The First State Bank of Corsicana, Texas, to W. D. Lamb, Lot 2 and part of Lot 3, Block 534-B, Corsicana, \$600.

Assignment. A. L. Absher, et al, to Elva McKerr, 1-64th overriding royalty interest in 20 acres of the Green Smith survey, \$1 and other considerations.

Justice Court. Three were fined on drunkenness charges Tuesday by Judge A. E. Foster.

GRAIN TRADE IS ENJOYING ITS BEST BUSINESS IN YEARS

CHICAGO, Aug. 12.—(AP)—The grain trade is enjoying its best business in seven years.

Return of the public to the grain market coincident with production of large American crops in 1937 has quickened the tempo of La Salle Street.

In the last three months the turnover of the board of trade, the grain market's focal point in the business, has been running 77 per cent greater than in the corresponding 1936 period.

Big crops, wide fluctuations in prices and small world reserves of wheat are factors in the broadened trade that has transformed La Salle Street's frowns to smiles.

Movement of the biggest wheat crop in six years has added to the commercial use of the market by handlers protecting themselves against possible losses.

The markets total volume of grain futures dealings in three months ended July 30, involved approximately 4,900,000,000 bushels.

Anti-Lynching Bill Goes Over To New Session

WASHINGTON, Aug. 12.—(AP)—Senate leaders reported today they had negotiated an agreement to consider anti-lynching legislation next session in order to break the current legislative log-jam over the controversial issue.

Republican Leader McNary said an agreement had been made and agreed to by all parties, to lay the anti-lynching bill aside but give it the status of a "special order" for the senate in January.

The agreement was negotiated as the senate headed into a filibuster on the Wagner-Van Juyas bill which threatened to delay the entire legislative program and block an early adjournment.

Senator Connally (D-Tex) assailed both the bill and the move to bring it up in the midst of adjournment plans. He said Senator Wagner was "willing to create embarrassment for the president and the leadership of the senate in order to put over one of his pet measures."

The constitution's framers, Connally contended, intended to leave police power to the states.

"This legislation is a fraud on its face," he said. "Its real design is to select a special group and give it rights and privileges denied others."
